

OPTIK

2018
COLLECTION

2018 GOAL COLLECTION

Challenge the Status Quo. At Brian's we apply this mindset to every task we take.

Many elements in goal equipment have a traditional origin, and as products continue to evolve, many of these no longer hold the same purpose.

New for 2018, the Optik line is designed to challenge traditional components and take innovation to new heights. A lightweight, streamlined design, the Optik goal pad introduces a new core system, allowing the goaltender to chose flexibility based on personal preference. The Optik catch glove and blocker feature the addition of the world renowned Boa System. Successful in several industries, the partnership between Brian's and Boa brings new technology to the world of goalie equipment, taking fit, comfort and performance to the next level. Along with the new Optik chest and arm and Optik goal pant, designed to meet new NHL standards, as well as a full line of accessories, the Optik line epitomizes our brand's core values.

Also new to the line for 2018, the Alite, a price point version of the successful Heritage line available in Senior, Intermediate and Junior. It features a re-designed core to provide the most flexible Brian's price point goal pad while the catch glove has been re-designed to give a true game ready feel with a clean, classic cosmetic look.

The team at Brian's is truly thankful for the continued interest and support of our brand. Our team will continue striving to manufacture and design products that push the envelope in terms of innovation, quality and craftsmanship, creating the most advanced, user friendly gear in the market.

Best of luck for a successful 2018 season.

The  Team

OPTIK

SMART X STRAP

OPTI-SLIDE

OPTI-SLIDE TECHNOLOGY

Higher density foam inner panel coupled with a bindingless edge produces our best slide to date.

PRIMO SYNTHETIC

Sliding side features our durable Primo synthetic leather.

SMART X STRAP

Revamped Smart Strap System provides a single connection point to pad and a more secure fit.
