2019
COLLECTION

2019 GOAL COLLECTION

The team at Brian's is committed to manufacturing products that lead the market's evolution through our innovation and craftsmanship. As the hockey market continues to evolve, our products and designs continue to do so as well.

New for 2019, the Canadian-made G-Netik IV joins the Optik line to give goaltenders choice of pads based on their personal style of play and gloves on their preference of fit and feel. The G-Netik IV line is designed fusing traditional G-Netik components and new innovation, taking the evolution of the G-Netik family to the next level. The pads feature internal knee rolls and a focus on torsional rotation, while the catch glove and blocker features the addition of the Boa System to provide superior fit, comfort and performance.

At the price point level, the Optik 9.0 brings a price point version of the successful Optik line, available in Senior, Intermediate and Junior. The goal pad features a re-designed core and streamlined outer roll as well as a catch glove and blocker that have been re-designed with a lightweight, game ready feel to provide Brian's pro level craftsmanship in a price point model.

Also new for 2019, the NetZero 2 is the next generation of the highly successful NetZero model. Available in Intermediate, Junior and Youth sizes featuring Smart Straps on the pads, an easy to close catch glove and designed with a new, clean graphic with option for colour kit application, the NetZero 2 brings Brian's custom capability to all customers.

From all of us at Brian's, we thank you for your continued interest and support of our products and allowing us to be a part of your hockey journey.
