

1987
Cooper

***"Innovation of Today
Tradition of Tomorrow"***

To Our Customers

It has always been the aim of Cooper Canada Limited to be easy to do business with. We have tried very hard to have an appreciation of our customer's problems and have a minimum of rules. We feel that the stating of our policies will make it easier and more profitable for our customers to deal with Cooper.

PRICES AND TERMS

We endeavour to keep the current prices for the duration of the catalogue. However, extraordinary conditions sometimes arise during the life of a catalogue which oblige us to make changes, which are kept to a minimum. All placing orders are shipped at the prices quoted at the time of booking (or lower in the event of a price decline).

A \$5.00 service charge is added to orders for less than \$100.00 net cost. This charge is not applied to back orders. Interest at 2% a month is charged on overdue accounts.

SHIPPING AND DELIVERIES

We ship by the method you specify or by the cheapest method when you do not specify. It is safer for you to specify. We ask for the right to ship one back order at your expense. While we endeavour to keep all lines in stock at all times, this is not always possible. If you choose not to pay transportation on back orders, please indicate this by marking your order "Cancel back orders", or "Ship complete when ready." All goods are sold F.O.B. our warehouse.

GUARANTEE POLICY

We must be the sole judge in the matter of goods returned because they appear not to have given normal wear and service.

It is our policy to repair, replace or credit you at our discretion in connection with such articles. We ask you, therefore, not to make new goods replacements to your customers, subsequently, asking us for credit or replacement. If, in our judgement, the article has given reasonable service, we may make a nominal charge for its repair or replacement.

LONG DISTANCE CALLS

We have to instruct our operators not to accept collect phone calls or wires, other than those phone calls received on the Superservice Wats line numbers, listed on the inside back cover.

DEALER RETURNS

Goods either shipped as ordered or judged by you to be not suitable may not be returned without our written permission. A Merchandise Return Authorization Form must be obtained from either your local sales representative or our Customer Service Department. A copy of the authorization form and our shipping label must accompany all returns.

When a merchandise return has been authorized the goods should be sent with freight charges prepaid to Cooper Canada Limited, 501 Alliance Ave., Toronto, Ontario M6N 2J3. Sometimes it will be necessary to apply a 15% handling charge.

CLAIMS AND SHORTAGES

If a shipment appears from the outside to be damaged, please make a note on the transportation receipt "Received in bad order." Then, if on opening the shipment some goods are damaged or missing, you should make a claim to the transportation company for the amount of damage or shortage. In the event of a damaged parcel-post shipment, please advise us, and we will make a claim. If the shipment appears to be in good order, but some goods are missing, notify us within five days of receipt of goods and we shall make the appropriate adjustment. Claims for non-delivery of cartons, pilferage and/or damage must be submitted to the respective carrier in writing within 10 days from date of delivery. Failure to follow this procedure can jeopardize obtaining payment from the respective carrier.

All parcel post shipments are insured and, in the event of failure to receive such a shipment, notify us at once so that we can deal with your claim from the Post Office. It is, of course, impossible to supply proof of delivery of a parcel-post shipment. The Post Office assures us that more than 99% of all parcels reach their destination in good order and we ship parcel-post for only one reason — that is, because it costs you much less than other methods.

COOPER SKATES

"The Tradition Carries On"

Cooper skates have developed the strong reputation for outstanding quality, fit and performance that all Cooper equipment is noted for.

Cooper skates are built from a pedigree history. Since 1905, the Cooper company heritage has been associated as a leatherspecialist and today is recognized as the Sporting Goods leader and innovator in new materials and technology.

In 1983 Cooper acquired the Roos Skate Company of Kitchener. Building upon the Roos' hand crafted designs, Cooper applied their expertise in materials (leather, high tech foams, nylons and plastics) and manufacturing technology to develop the top Cooper skate line of today. This long term commitment to excellence has culminated in the premier line of skates ... Cooper skates — second to none.

Control/Fit

- Every Cooper skate boot is hand crafted on a special Cooper contoured foot "last" to ensure an accurate consistent fit resulting in much better control and a more durable longer lasting skate.

Protection

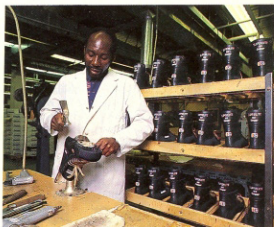

- The new SuperLight 100's and 102's have the new Cooper TUFF TONGUE that
 - provides better impact absorption
 - reduces lace bite
 - reduces tongue "twisting" and
 - has better resistance to skate slice
- Foams in the Cooper skate ankle are specially designed to **stay in place** to provide that necessary protection. They will not "flow" or move around leaving the ankle bone unprotected.
- The heel counter and box toe are constructed of tough premoulded polyethylene and leather lined to provide extra protection.

Support

- The new SuperLight 102's and Superlight 100's have the new Cooper TUFF TONGUE that provides extra support along the area of the skate boot laces (a key area where skate boot fatigue breakdown starts).
- The unique Cooper ankle construction supports and locks the ankle and heel in place. The Cooper ankle foams are designed to **stay in place** providing ankle support and protection.
- The Cooper sock liner provides excellent arch and heel support, aligning the foot for superior skating control.

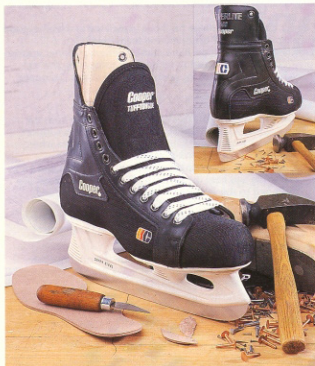

Manufacturing Finish

- The famous Cooper quality continues throughout the complete Cooper skate line. The finest quality leathers and nylons are used to hand craft each boot. Each hand crafted step is carefully checked to maintain that standard of quality. This "old time tradition" of careful hand crafted attention results in a skate you are proud to own.

SuperLite 100 and 102's

Cooper SuperLite 100's and SuperLite 102's are the best performing, lightweight skate containing the unique "TUFF TONGUE" that provides superior protection and support for the serious hockey player.

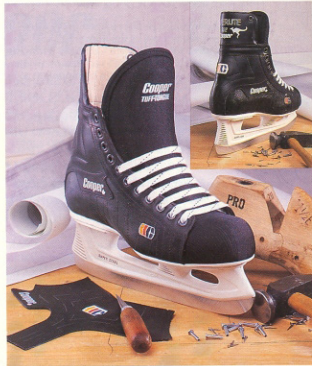

"SUPERLITE 100"

- "Handcrafted" boot with Supertough ballistic nylon quarters are foam padded for comfort and protection.

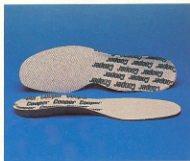

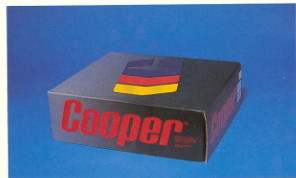

"SUPERLITE 102"

- "Handcrafted" boots with Kangaroo Leather quarters, reinforced with cut resistant nylon for durability, and foam padded for comfort and protection.

- New Cooper TUFF TONGUE provides better protection, reduced lace bite and tongue twisting.
- FIT: "Handcrafted" (hand lasted) fit for better control and hence longer durability.
- Removable sockliner designed to ensure proper alignment of the foot for superior control.
- SUPPORT: Unique ankle construction features EVA Foam providing excellent support, maximum protection and comfort.
- SUPER LIGHT WEIGHT: New foam moulding technology and materials have allowed us to provide one of the lightest skates ever.
- PROTECTION: Tough premoulded polyethylene counter and box toe which is leather lined.
- Terry cloth skate guard.
- New 4 colour Cooper logo box.
- Adult full and half sizes 6-12, choice of widths C, D, E, EE. The outsole is stamped with skate size and width for easy identification when fitting.

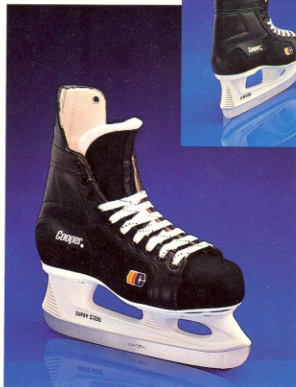

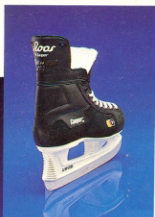

Ask your salesman for the complete launch package.

Built with the same quality standards of the 100's and 102's but for the demanding junior player.

Cooper Custom Pro Junior 200

- HANDCRAFTED (hand lasted) fit for better control, support and better durability.
- SUPER TOUGH BALLISTIC NYLON QUARTERS are foam padded for comfort and protection.
- UNIQUE ANKLE CONSTRUCTION features EVA Foam allowing maximum protection and comfort.
- TWO PIECE CUT PROOF NYLON TONGUE padded with foam and covered in needlefelt.
- REMOVABLE SOCKLINER designed to ensure proper alignment of the foot for superior control.
- Tough premoulded polyethylene box toe which is leather lined.
- Junior sizes 2-6, choice of widths C, D, E. The outsole is stamped with skate size and width for easy identification when fitting.

Youth Size

New beginner skate in youth sizes 10-13 full sizes only.

Cooper Y50

- Nylon quarters, toe and tongue
- Leather trimmed upper
- Leather lining
- Nylon tongue, felt lining
- Tough premoulded plastic box toe for protection
- Padded ankles for protection and support

Cooper Y60

- Nylon quarters, toe and tongue
- Nylon trimmed
- Split leather lining
- Nylon tongue, felt lining
- Padded ankles for support and protection
- Tough premoulded plastic box toe for protection

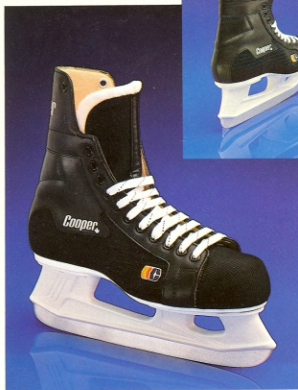

Always remember to dry your skates after every use. Pull the tongue forward and remove the sockliner. Proper maintenance of your skates will ensure longer durability and use.

Skates for those who want superior fit, performance and comfort in a popular priced durable skate.

Cooper Adult 103

Cooper Adult 103 are crafted with foam padded, nylon quarters, leather uppers and leather trim.

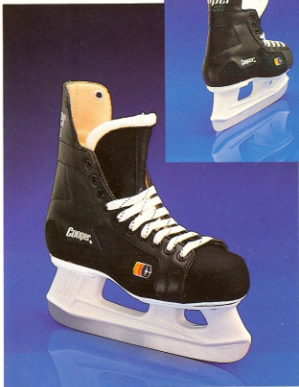

- HAND CRAFTED (hand lasted) fit for better control, support and durability.
- ANKLE CONSTRUCTION features minicell foam for fit, comfort and protection.
- TONGUE — two piece nylon, lined with needlefelt.
- SOCKLINER — foam padded.
- Tough premoulded polyethylene box toe and counter for maximum protection.
- Adult full and half sizes 6-12 in Medium (D) width only. The outsole is stamped with skate size and width for easy identification when fitting.

Cooper Junior 203

Cooper Junior 203 are crafted with foam padded nylon quarters, leather uppers and leather trim.

- HAND CRAFTED (hand lasted) fit for better control, support and durability.
- ANKLE CONSTRUCTION features laminated coult for support, comfort and protection.
- TONGUE — two piece nylon, lined with needlefelt.
- SOCKLINER — foam padded.
- Tough premoulded polyethylene toe box and counter for maximum protection.
- Junior full and half sizes 1-5½ in Medium (D) width only. The outsole is stamped with the skate size and width for easy identification when fitting.

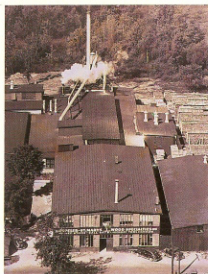

COOPER STICKS

Did you know

Cooper's Hespeler stick plant has been producing hockey sticks since 1908 and claims the distinction of being "the world's oldest hockey stick manufacturer."

In the late 1920's, early 30's, Jos. Seagrams and Company formed a holding company and purchased all viable hockey stick concerns.

These concerns were amalgamated in 1935 to form Hespeler-St. Marys Wood Specialties.

In the early 1950's the Hespeler operation was considered one of the leaders in hockey stick manufacturing. The three-piece construction was developed at Hespeler and quickly became the standard in the industry.

In the 1960's competition in the hockey stick market was intensified due to the introduction of four or five major new hockey stick companies. By 1970 the growth continued on the strength of the famous Hespeler Mic Mac, Blue Flash, Green Flash and Superlite.

In 1972 Cooper purchased the Hespeler facilities. Since then Cooper has applied its hockey market leadership and extensive research and development skills to implement major improvements in Cooper (Hespeler) sticks. In 1986, Cooper introduced two new exciting sticks — TNT Pro and TNT Team.

Cooper further continues the trend of introducing new products that respond to the consumer demands. New for 1987 is the "LK501" a senior model with exciting graphics and a flared blade with a full curve, protected in a fibreglass soc-wrap. Also three new goal sticks — GL55 (Intermediate), GL100 (Junior) and GL170 (Beginner).

New and improved designs and constructions were introduced on the TNT PRO, TNT GRAPHITE and TNTs and new graphics on the JP100, US425 and Superpro Light.

1987 looks to be a banner year for Cooper sticks ... Look to Cooper for consistent quality, service and innovation in the stick market.

Professional Style Hockey Sticks

"Professionally crafted for performance" using the latest materials and laminates, finished in exciting graphics.

TNT Pro "High Performance"

- ▶ Blade — NEW improved with fiberglass soc-wrap and graphite strands for stiffness, strength and durability. 13 ply laminated blade with A.B.S. heel insert — protects from moisture and wear.
- Shaft — 5 ply fiberglass reinforced laminated shaft — light and stiff.
- Weight — 22 oz.
- Finish — consistent construction with exciting red and silver graphics on the black shaft.

TNT Team "Responsive"

- Blade — 2 ply white ash blade — excellent feel for the puck.
— fiberglass soc-wrapped for strength and durability.
- Shaft — 5 ply fiberglass reinforced laminated handle light and stiff.
- Weight — 22 oz.
- Finish — Regulation blade curve/Red and white graphics on a white shaft.

TNT Graphite "Solid"

- ▶ Blade — NEW fiberglass soc-wrap and graphite reinforcing wood/fibre laminated blade for stiffness and strength.
- Shaft — New 3 ply maple, poplar laminated shaft with aircraft veneer overlay.
— provides strength and stiffness.
- Weight — 24 oz.
- Finish — well balanced stick with black and white graphics on a natural finish.

Note: All sticks are offered in 1/2" (12.7 mm) curve, left or right, lies 5 and 6, length 57" (145 cm).

LK501

US 425

S319

Intermediate/Senior Sticks

Value crafted to perform like the pros

LK501 New for 1987 — "The big blade"

- Blade — 2 ply split ash blade with flared toe and full curve — Pro feel.
- fiberglass soc-wrapped for strength and durability.
- Shaft — 13 ply wood laminated shaft — strong and stiff.
- Weight: 22-23 oz.
- Finish — Exciting new light blue and white graphics on a dark blue shaft base.

US 425 — "The full curve"

- Blade — 13 ply glass reinforced blade — strong.
- ABS heel — protects from moisture and wear.
- Shaft — select ash handles — strong.
- Finish — New high impact red and blue graphics on a natural finished shaft.

S319 (Mic Mac®) — "The original"

- Blade — glass reinforced white ash blade with epoxy finish — 1/2 (12.7 mm) curve.
- Shaft — 19 ply laminated birch handle — stiff and light.
- Weight — 22-23 oz.
- Finish — Black and white graphics on a white finished shaft.

All sticks available in left and right, lies 5 and 6, length 57" (145 cm).

Junior Hockey Sticks

Crafted to perform to the Junior players particular needs.

TNT-S "The Junior Pro"

- Offers the performance of a "pro-model" stick with a scaled down shaft and blade for balance and handling.
- Select ash handle.

NEW 13 ply graphite and glass reinforced laminated blade.

- Tough ABS heel insert protects from moisture and wear.
- Black and white graphics on a natural finish (like the TNT Graphite Pro Model).
- Available in 1/2" (12.7 mm) curve, left or right, lies 5 & 6.
- Length 49" — 124.5 cm.

JP100 "The light stick handler"

- Specially designed handle is lightweight, yet very durable.
- Glass reinforced blade with an ABS heel insert — protected from moisture and wear.

► **NEW** colourful graphics, red and blue on grey shaft, gives the JP100 its own identity for 1987.

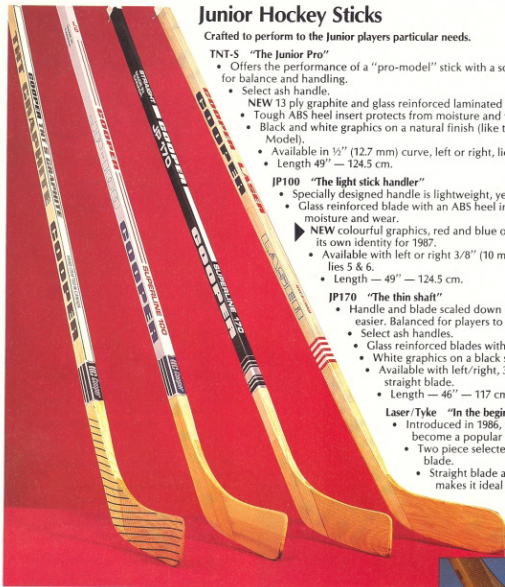

- Available with left or right 3/8" (10 mm) curve or straight blade, lies 5 & 6.
- Length — 49" — 124.5 cm.

JP170 "The thin shaft"

- Handle and blade scaled down to make stick handling easier. Balanced for players to 10 years.
- Select ash handles.
- Glass reinforced blades with an epoxy resin finish.
- White graphics on a black shaft.
- Available with left/right, 3/8" (10 mm) curve or straight blade.
- Length — 46" — 117 cm.

Laser/Tyke "In the beginning"

- Introduced in 1986, this stick has already become a popular seller.
- Two piece selected hardwood handle and blade.
- Straight blade and 45" (114 cm) handle makes it ideal for youngsters 4-7 years.

Ringette

RTE-1

- Selected ash handle stick designed to meet Ringette specification.
 - Available in red (defense), blue (wingers) and white (centre).
 - Length — 54" (135 cm).
- **NEW** Packed in lots of 6.

Due to the nature of the game, hockey sticks are not guaranteed against breakage.

Souvenir Hockey Stick

SHS

- Miniature replica of regular hockey stick.
- Excellent promotional item.
- Special stamping available on one side.
- Special screening extra.

Goal Sticks

Superpro Light "The pro's choice" (SPLCGL)

- Blade — glass reinforced 13 ply ash/maple blade treated with epoxy resin — strong and rigid
- ABS heel provides protection from moisture and wear
- Shaft — Exclusive multi-laminated shaft with epoxy treated airfoil style, glass reinforced fins
- extremely light yet durable
- Weight — 31 oz.
- Finish — New Multi-coloured graphics on basic silver grey, and blue models gives Superpro Light stronger identity for 1987

Superlite "The goal stick standard" (SLCGL)

- Blade — Reinforced white ash blade
- ABS heel insert provides protection from moisture and wear
- Shaft — Bonded laminated handle with glass reinforced airfoil style fins
- lightweight
- Weight — 35 oz.
- Finish — Epoxy resin finish
- Available in black, blue or red

Note: Super Pro Light and Superlite are available with

- Straight blades — or left $\frac{1}{2}$ " curved blades — lie 13, 14, 15
- $\frac{1}{2}$ " right curved blade — lie 14 only

GL55 (NEW for 1987) "Intermediate Model" NEW

- Blade — Solid white ash — strong
- New ABS Heel insert to protect from moisture and wear
- Shaft — Multi laminated, birch handle with glass reinforced airfoil style fins
- lightweight
- Finish — new colourful graphics, red and blue on a silver grey shaft base plus a new name gives the GL55 a new exciting look for 1987
- Available in lots of 3
- Length — 55" (140 cm) with a straight blade in lie 14 only

GL100 (NEW for 1987) "Junior Pro Model" NEW

- Blade — White ash blade
- New ABS heel insert protects from moisture and wear
- Shaft — Select ash handle with glass reinforced "airfoil style" fin providing the professional model in a junior goal stick
- Finish — Epoxy resin finish
- New colourful graphics, red and blue on a silver grey shaft base (similar to the GL55) giving the GL100 a new strong look for 1987
- Available in lots of 6, Length 45" (114 cm.)

ABS Heel

GL170 (NEW for 1987) "Beginner Model"

- Blade — glass reinforced ash blade
- Shaft — Northern ash handle
- Finish — New colourful graphics (similar to the GL55, GL100) and/or epoxy resin finish provides this goal stick with the construction required to make the big save
- Available in lots of 6, length 40" (101 cm.)

The world plays hockey with *Cooperall*

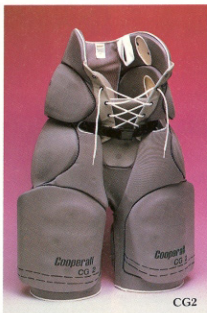

- The Cooperall® system is now the standard for mid-body protection.
- The essential component is the Cooperall girdle, which is lightweight and flexible, and when fitted and worn properly, never leaves the area of the body it is designed to protect. Professional, senior, junior and referee models are shown on page 15.
- With the protection of the Cooperall girdle, the player may wear long or short pant shells. Both shells feature our TUFFSTUFF® fabric for improved freedom of movement, ventilation, and cut and wrinkle resistance. Cooperall long pants and Cooperall Coupés (short pants) are featured on page 16.
- The Cooperall Upper Body Protectors are featured on pages 42 and 43.

CG1

CG2

CG3

Cooperall Girdles — Protection, Comfort, Lightweight

Protection

The Cooperall girdle provides unsurpassed protection. This is accomplished through the use of close fitting padding which when fitted properly never leaves the area of the body that it's designed to protect. Teams using Cooperall have experienced greatly reduced occurrences of injuries to the thigh, hip and spine areas.

Comfort

The entire girdle shell is made of Sanitized® stretch Lycra® that allows full freedom of movement and will not absorb moisture. Unlike conventional hockey pants the moisture is dissipated, so perspiration runs off the body instead of being absorbed into the equipment.

Lightweight

Cooperall girdles are 20% lighter than comparable conventional hockey pants. The weight savings is greatly increased during game conditions because the unit remains virtually as light at the end of the game as it was at the opening face-off.

CG1 Professional Model

Superlight Foam Padding

The CG1 features superlight foam padding which decreases the girdle's total weight by 6 oz. (100 grams) and improves protection and fit. Thigh, hip and tail protection pads have high density polyethylene caps encased in high density BXL foam for triple layer protection. The double layer shell is constructed of heavy duty Lycra® for lightweight and durability. Belt allows stay snug adjustment.

Stock sizes: small, medium, medium wide, medium short, medium wide short, large, large wide, extra large wide (see sizing chart — page 14).

Superlight Foam Padding

The 1987 CG1 and CG2 girdles feature the anatomically designed compression moulded foam pads. This padding system provides a trimmer fit, lighter weight, increased protection and improved durability.

CG2 Senior Model

Superlight Foam Padding

The CG2 features superlight padding which decreases weight and improves fit and protection. The rugged double layer Lycra® shell allows for a snug comfortable fit. Inner pockets have elastic serged opening; open mesh Lycra® crotch for ventilation; belt adjustment for snug sure fit.

Stock sizes: extra small, small, medium, medium short, medium wide, medium wide short, large, large wide.

RCG1

CG3 Junior Pro Model

The CG3 provides the youngster with all the advantages of Cooperall. The shell is constructed of durable Sanitized® Lycra®. Vital areas are protected by laminated poly foam and high impact polyethylene. Additional padding in the cheek and groin area. Thighs have full wrap around protection. Inner serged pocket openings. Lace front allows snug comfortable fit.

Stock sizes: small, medium, large.

RCG1 Official's Girdle

The Cooperall RCG1 official's girdle provides linesmen and referees with hip, thigh and kidney protection with soft trim plastifoam pads. The vital tail bone area is protected by a poly reinforced pad. The RCG1 has been made mandatory in several professional and top amateur leagues.

Sizes: small/medium, medium/large, extra large.

CLP1

CLP3

CCS1

CCS3

Cooperall Long Pants

Cooperall long pants feature the exclusive TUFFSTUFF® fabric. TUFFSTUFF® fabric provides double the cut resistance of 400 denier nylon. It allows more freedom of movement, ventilation and wrinkle resistance than nylon. Excessive sliding on ice is no longer a factor with TUFFSTUFF® fabric. Cooperall long pants also feature the colourful embroidered Cooperall logo.

CLP1 Professional Model

TUFFSTUFF® fabric provides greatly increased durability, ventilation and stretch in the CLP1. Fronts and backs of legs are constructed of TUFFSTUFF®, with stretch Lycra® crotch and knee insert. The CLP1 comes complete with suspenders and stirrup straps. Black, Green, Blue or Red with 4 inch white Nylite stripes. Sizes: extra small, small, medium, medium short, large, extra large. (See sizing chart — page 14).

CLP3 Junior Pro Model

Same construction as the CLP1. TUFFSTUFF® fabric has replaced heavy weight nylon for increased durability, ventilation and stretch. Complete with suspenders and stirrup straps. Black, Green, Blue or Red with 3 inch white Nylite Stripes. Sizes: small, medium, large.

CLP1 and CLP3 Long Pant Options

Custom stripes for CLP1's must be 4 inches in width. Custom stripes for CLP3's must be 3 inches in width. Customs charges apply for all custom orders whether the colour change is in the stripe or the body of the pant. May be ordered in: Black, Gray, Royal Blue, Red, Kelly Green, Gold, Maroon, Purple, Navy, Orange, Dark Green, Dark Brown. Custom screened stripes not available.

CRP PRO OFFICIAL'S PANT

Official's pant is constructed of TUFFSTUFF® fabric. Features 2 slash pockets in front and 2 back pockets one open top and one zippered top. The pant has a zippered fly, belt adjustment and stitched in front crease.

Sizes: small, medium, large.

CRP-PRO

Cooperall Coupés

The Cooperall Coupés features Cooper's TUFFSTUFF® fabric. TUFFSTUFF® fabric increases freedom of movement, ventilation and durability. The Cooperall Coupé allows the player all the performance advantages of Cooperall while retaining the conventional hockey pant appearance.

CCS1 Professional Model

The CCS1 Cooperall TUFFSTUFF® Coupé has a laced front. The backs of the thighs are lined to avoid skate cutting. Heavy duty Nylite 3 inch white stripe. Black, Blue, Red or Green. Sizes: Small, Medium, Large, Extra Large. (See Sizing Chart —Page 14).

CCS2 Senior Model

TUFFSTUFF® fabric construction with stretch Lycra® front and no inner lining in thighs. Heavy duty Nylite 3 inch white stripe. Black, Blue, Red or Green. Sizes: Extra Small, Small, Medium and Large.

CCS3 Junior Model

TUFFSTUFF® fabric construction with stretch Lycra® front and 2 inch white stripe. To be used with the CG3 girdle. Black, Blue, Red or Green. Sizes: Small, Medium and Large.

Cooperall Coupés Options

Custom stripes for CCS1 and CCS2 Coupés must be 3 inches in width. The CCS3 stripe must be 2 inches in width. Customs charges apply for all custom orders whether the colour change is in the stripe or the body of the pant. May be ordered in: Black, Gray, Royal Blue, Red, Kelly Green, Gold, Maroon, Purple, Navy, Orange, Dark Green, Dark Brown. Custom screened stripes not available.

Cooper Hockey Sweaters Fit, Quality, Value

Cooper hockey sweaters are approved by the Canadian Amateur Hockey Association.

Cooper offers a complete range of polyester mesh and knit hockey sweaters and hockey stockings in thirty-six popular team patterns.

All Cooper hockey sweaters feature a full professional cut for better fit. Cooper pro mesh hockey sweaters are the choice of N.H.L., Canadian Major Junior Hockey League and university teams. Cooper knit hockey sweaters are the choice of many house league teams because of fit and variety of patterns.

Canadian National Junior Team

Cooper in co-operation with the Canadian Amateur Hockey Association has the exclusive rights to use the official National Junior Team Crest. This sweater has a two colour screened crest, all the features of our knit sweater and is offered in white only.

(White) 110145 NATM Adult's Small, Medium, Large and XL

(White) 120145 NATB Youth's Small, Medium, Large and XL.

Cooperall Pro Mesh Hockey Sweaters

**New for
1987**

Cooperall mesh hockey sweaters are made of 100% polyester professional weight mesh as used in the 110135/120135 and 110130/120130 styles of sweaters. Body of sweater is three inches longer than the traditional Cooperall knit sweater and has rib knit V-neck collar for comfort. Raglan style sleeve gives a comfortable fit and ease of movement. This new Cooperall mesh sweater is also very suitable for lacrosse and ball hockey. Mesh is durable and screens well.

CHSM Adult's Extra Small, Small, Medium, Large and XL. All patterns of Cooperall hockey sweaters may be ordered in size XXL. See price list for exact pricing.

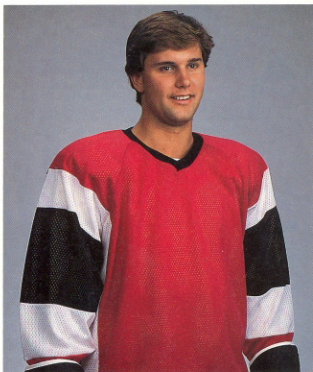

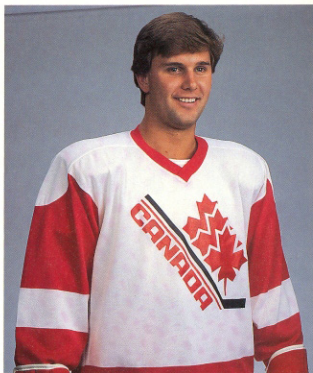

CHSM Sizing Chart

Actual Chest Measurement	Recommended Size When Using Protective Equipment	Cooperall Sweater Size
32-34" (80-85 cm)	34-36" (85-90 cm)	XS
36-38" (90-95 cm)	38-40" (95-100 cm)	S
40-42" (100-105 cm)	42-44" (105-110 cm)	M
44-46" (110-115 cm)	46-48" (115-120 cm)	L
48-50" (120-125 cm)	50-52" (125-130 cm)	XL

Size XXL has a larger arm opening and a wider sleeve and cuff. There is no difference in chest measurement.

Attention

Athletic uniforms may shrink when subjected to extreme heat i.e. when cresting is performed. Cooper Canada Limited and/or Cooper International Inc. accept no responsibility for this shrinkage. Due to the various methods of cleaning and laundering athletic garments, we cannot accept responsibility for condition of clothing after washing or cleaning.

Attention

Special care is needed when washing hockey sweaters and stockings in dark colours i.e. Maroon, Red, Royal, Navy.

Wash only in cold water with soap containing no bleach.

Pro Mesh Hockey Sweaters

Cooper mesh hockey sweaters are made of 100% polyester professional weight mesh. Fabric is durable and screens well. Sweaters feature a full professional cut, wide arms, pro style cuffs and large single shoulders, for better fit. Rib knit V-neck collar offers comfort, stretch and style.

110135 Adult's Small, Medium, Large, and Extra Large
120135 Youth's Small, Medium, Large, and Extra Large
 Boston, Buffalo, Chicago, Detroit, Edmonton, Minnesota, Montreal, New York, Toronto, Pittsburgh, Philadelphia, Washington, Islanders. (not shown).

All patterns of 110135 adult pro mesh hockey sweaters may be ordered in size XXL. See price listing for exact pricing.

Hockey stockings in 410145 and 420145 qualities to match above teams.

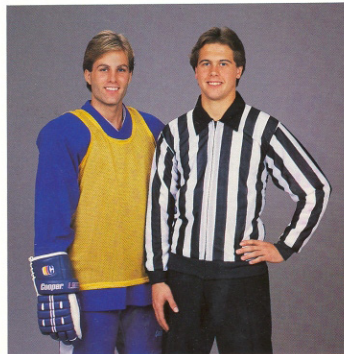

Packaging

All Cooper hockey sweaters will be packaged in individual poly bags and bulk shipped in master shipping cartons unless otherwise specified.

If your order requires special packaging (i.e. team sets) please ensure that these requirements are stipulated on the order. All special packaging instructions are subject to approval before orders will be processed.

110145 and 110146 Adult's small, medium, large and extra large

120145 and 120146 Youth's small, medium, large and extra large

All patterns of 110145 and 110146 Adult's hockey sweaters may be ordered in size XXL. See price list for exact pricing.

Cooper Hockey Stockings

A blend of 46% polyester and 54% cotton, Cooper's hockey stockings retain their shape, bright colour and strength. Patterns and colours to match Cooper Hockey Sweaters. (Measurements shown are "relaxed" sizes.)

410145 Pro Model

With soft absorbent cotton stirrup with extra wide fit. Length 30" (76.2 cm), width 8½" (21.6 cm).

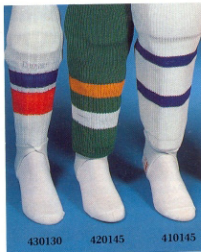

420145 Youth Size Pro Model

Same as 410145 above, 24" (61 cm) long, 6" (15.2 cm) wide.

430130 Tyke Model

6 ply texturized polyester with cotton stirrup. Ribbed knit design. Youth size: 22" (55.9 cm) long, 4" (10.2 cm) wide.

911723 Tube Socks — white only (shown under hockey stockings) 68% cotton/32% nylon. One size tube sock. 24" (60 cm) relaxed length.

Cooperjohns® Hockey Underwear

Cooperjohns hockey underwear's superior thermal properties keep you dry, warm and comfortable.

Cooperjohns hockey underwear are made of Rhovylon® which is a non-absorbent fabric knit from 100% chlorofibre. Rhovylon has the unique ability to allow the evaporation of body moisture, leaving the skin dry and warm. Rhovylon is non-allergenic and static free.

Cooperjohns hockey underwear have a full active hockey cut. The fabric is elastic in texture and stretches comfortably over all parts of the body when you move.

Cooperjohns Underwear Top

310501 Men — Adult size S/M, L/XL

320501 Youth — Youth size S/M, L/XL

Top features long raglan style sleeves and reinforced seams.

Cooperjohns Underwear Bottom

210501 Men — Adult size S/M, L/XL

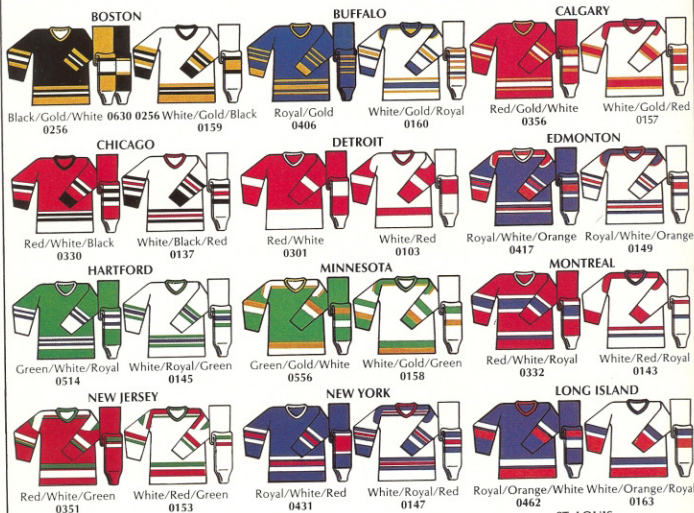

220501 Youth — Youth size S/M, L/XL

Bottom features elasticized waistband and reinforced seams.

Washing

Cooperjohns hockey underwear must be machine washed at 20°C and hung to dry or tumble dried at cool setting.

Cooper Knit — Sleeve Insert Style Men's #110146 Youths' #120146

XL7 Super Pro Helmet

- Lightweight
- Protection
- Comfort
- Style

The XL7 combines all of these features to provide Cooper's best hockey helmet ever. The Cooper XL7 has a soft terry covered liner which comfortably conforms to the player's head without any uncomfortable pressure spots against the head. The patented Cooper Lock allows quick easy adjustment without screws. The shell's extreme lightweight and protection rigidity has been accomplished through the use of deeply recessed ridges. The high impact polyethylene shell has a beaded edge for added protection.

XL7 — Professional Model Sizes 6 3/4 to 7 1/2 (European sizes 54 to 60).

XL7S — Junior Model XL7. Features and construction are the same as the Super Pro XL7. The XL7S fits sizes 6 1/2 to 7 (European sizes 52 to 56).

White, Black, Red, Blue, Gold, Green and Maroon.

XL7, XL7S, CSA Certified Faceguards

XL7 Certified with XL7FGM, XL7FGL, VL50M,
XL7S Certified with XL7FGM, XL7FGL, VL50M,
VL50L.

Cooper XL7FG Faceguard

The XL7FG faceguard has been designed exclusively for the Cooper XL7 helmet. The bubble style wire cage allows excellent visibility. The jaw guard quickly adjusts for a personalized fit to the chin. Release and locking is achieved by a two point strap system. The XL7FG attached to the XL7 helmet provides a very comfortable integrated unit. The patented Zytel® nylon jaw guard slides easily and securely into the helmet.

XL7 comes complete with internal mouthguard for extra protection.

XL7FG-M medium faceguard (black wire finish only).

XL7FG-L large faceguard (black wire finish only).

XL7HM combination XL7 helmet with XL7FG faceguard.

XL7FG-M, XL7FG-L, XL7HM — white, black, blue, red,

green, gold and maroon — **NEW.**

SMC7 — Side mounting clip for XL7 and VL50

combination. Black nylon, 1 pair.

FMC7 — Front mounting clip for XL7 with VL50 or XL7FG faceguards. EACH.

PXL7 — Senior replacement liner with strap.

PXL7-S — Junior replacement liner with strap.

Hockey Helmet Replacement Policy

Cooper hockey helmets are guaranteed to be free from defects in workmanship and materials for a period of 30 months from date of manufacture when used as intended and without alterations.

Helmets that are painted, drilled, or have decals applied are not guaranteed. Helmets that have had padding or attachments removed are not guaranteed.

Do not clean with solvents or abrasives, or use any other chemical products or adhesives.

Cooper Hockey Helmets

SK2000 Professional Helmet

The Cooper SK2000 is Cooper's most popular helmet with the pro's. The SK2000 provides superb comfort with its soft inside padding of high-density Rubatex® foam. To adjust the SK2000, simply loosen two screws, fit the helmet on the player's head and tighten. Features extended ear and jaw protection. The shell is of high impact polyethylene.

SK2000 fits head sizes 6 5/8 to 7 1/2 (European sizes 53-60).

SK2001 Junior Model — Same construction and materials as the SK2000. SK2001 fits sizes 6 1/2 to 7 1/4 (European sizes 52 to 58).

SK2000 and SK2001 — White, Black, Blue, Red, Green, Gold, Maroon.

SK2000, SK2001

CSA Certified Faceguards

SK2000 Approved with HM50L, HM50M, HM50S, VL50L, VL50M

SK2001 Approved with HM50M, HM50S and VL50M.

SK600 Hockey Helmet

The SK600 and SK600S feature a high impact absorbing polyethylene shell and lightweight moulded BXL liner. The 1987 SK600 features a newly designed inner liner with a soft terry covered sweatband. The adjustable shell has a deeply recessed rib for added rigidity and extended ear protection.

Red, Blue, Green, Gold, Black, White.

SK600 Senior Model

Fits head sizes 6 3/4 to 7 3/8 (European sizes 54 to 59)

SK600S Junior Model

Fits sizes 6 3/8 to 6 7/8 (European sizes 51 to 55)

Note: For SK600 replacement parts refer to page 81.

SK600 Approved with Cooper HM50L, HM50M, HM50S, VL50M & VL50L.

SK600S Approved with HM50M & HM50S, VL50M, VL50L & S-10.

SK600 Liner

Helmet liners will deteriorate depending upon frequency of use, care and maintenance. Liners should be inspected periodically for deterioration of the foam or the internal attaching materials. Worn liners should be replaced.

SK2000 Liner

Visualight VL50 Faceguards

Cooper VL50 faceguards combine light weight and visibility. The wire pattern is strategically located so as not to obstruct vision during play. The high impact injection moulded chin cup allows full coverage while reducing the total weight of the faceguard. Each includes an internal mouthguard for increased protection. The VL50 allows sufficient room for players with eyeglasses.

VL50M-W Visualight faceguard medium length in white.

VL50M-B Visualight faceguard medium length in black.

VL50L-W Visualight faceguard long length in white.

VL50L-B Visualight faceguard long length in black.

HM2050 Combination VL50L attached to SK2000, white only.

5-10 Youngster Faceguard

The 5-10 faceguard has been designed to meet the playing requirements of youngsters from 5 to 10 years old. The 5-10 provides the proper amount of protection for this age group, while significantly reducing the combined weight of the helmet and faceguard. The 5-10 foam chinpad cups the face for a secure, comfortable fit.

Note: The 5-10 is certified in Canada for use ONLY with the SK600S polyethylene helmet. Canadian Amateur Hockey Rules state that it CANNOT be used by players over 10 years of age.

THIS FACEGUARD IS NOT RECOMMENDED FOR GOALTENDERS. THE 5-10 DOES NOT MEET HECC/ASTM STANDARDS IN THE U.S.A.

Note: Cooper recommends the use of internal mouthguards with hockey faceguards. The use of internal mouthguards greatly reduces risk of concussions and dental injuries in hockey.

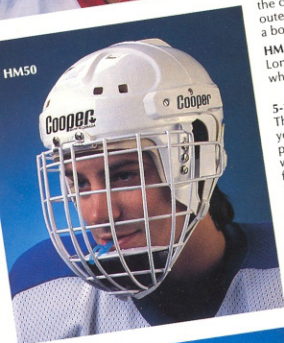

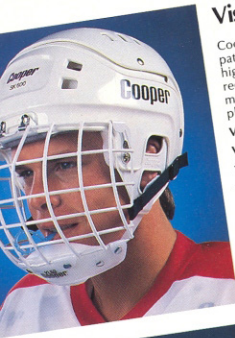

HC — Helmet Cover

Terry cloth helmet and faceguard bag with draw string designed to protect from scratches and abrasions while unit is in storage. One size fits all.

HC

Youngsters must wear helmets and faceguards that have been fitted properly. Head and facial injuries may occur if the helmet rotates on the head. The helmet is snug without being uncomfortable. When fitting faceguards, the player must rest in the chin cup. If the chin cup does not rest securely in the chin cup, the faceguard may come in contact with the face. Players should inspect faceguards periodically for cracks, screws, cracks and bent wire. Equipment should be replaced immediately.

Throat Protection

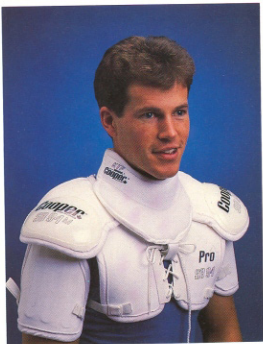

WARNING

Designed to minimize injuries only. No throat protector can protect against all skate cuts, blows or injuries.

KTP Throat Protector

Lightweight Kevlar® reinforced throat protector. Designed to match the contours of the jaw and neck. Cut resistant Kevlar® extends the full width and length of the throat protector. Lace down loop provides easy attachment to laced shoulder pads. Brushed nylon lined and foam padded for additional comfort. Quick fasten adjustment at back of neck. To fit neck sizes 14½" (36.25 cm.) to 18" (45 cm.)

KTPJR Junior size as above to fit neck sizes 13½" (33.75 cm.) to 16" (40 cm.)

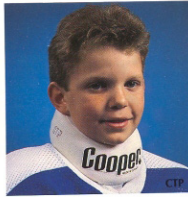

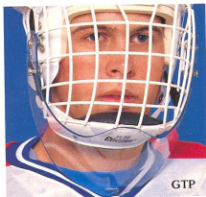

GTP Goalie Throat Protector

Lightweight polycarbonate throat protector. Can be attached to the VL50, HM50. Not to be attached to the XL7FG.

CTP Throat Protector —

Contoured polyethylene foundation covered with foam and brushed nylon, designed to fit the natural jaw and neck line. The CTP offers an exceptional fit with quick fasten adjustment at the back of neck. Lace down loop at front for attachment to shoulder pad lacing. Fits neck sizes 14½" (36.25 cm.) to 18" (45 cm.).

CTPIJR Junior size as above to fit neck sizes 13½" (33.75 cm.) to 16" (40 cm.).

Teeth Guards — for 1987

TG125 Teeth Guard

The new TG125 internal mouthguard has been designed with the help of oral surgeons to provide increased protection to the vital tooth and gum areas. Made of resilient dental vinyl the guard can easily be remoulded and adapted to tooth or mouth changes. Each guard comes complete with its own attachment strap. If not needed, the strap can easily be trimmed. Extremely comfortable — allows clear speech and easy breathing. Completely tasteless. Packaged in its own individual plastic box. Box can be attached to mouthguard while on wire faceguard.

Instructions included. Twenty-four mouthguards are packaged in an attractive dispenser type display carton. Order in multiples of 24.

Also available in skin packaged form in multiples of 25. Order TG125C for carded model.

Note: Cooper recommends use of internal mouthguards for all sports. The use of internal mouthguards greatly reduces the risk of concussions and dental injuries in hockey.

TG125

Cooper The Choice of the Pros

Protection for the hand is a major concern for every hockey player. More professional hockey players around the world count on Cooper than any other glove. The experience gained from the world's best players goes into every Cooper glove from the Superpro model to Youth gloves. Cooper recently introduced performance improvements including Dura Soft® palms for greater stick control and durability and TUFFSTUFF® fabric covering for lighter weight, increased flexibility and longer wear.

1987 Cooper Superpro models feature the unique ARMOURFOAM system of padding. ARMOURFOAM incorporates a superhigh density foam outer shell for increased impact resistance and an inner layer of softer BXL foam for comfort and shock absorption.

LBDP Superpro Leather Glove ARMOURFOAM PADDING

Crafted in Canada. The LBDP offers all the quality and protection of the BDP (featured on the opposite page). Premium select glove leathers are used on the backrolls, fingers, finger wart and thumb. The cuff and cuffroll are made of Nylite. The LBDP features the new ARMOURFOAM padding system.

The LBDP is the choice of many professionals who want the feel and durability of leather, yet require lightweight performance.

Blue/Red/White
Red/White/Black
Black/White

Cooper gloves features Dura Soft® synthetic palms. Dura Soft® has consistently outperformed leather on the ice and in the lab. Dura Soft® wears longer and stays softer than leather.

BDP Superpro Gloves ARMOURFOAM Padding

The Cooper BDP Superpro series is crafted in Canada. The BDP is the most popular glove with the pro's. It has set the standard for protection, weight and performance through use of Tuffstuff® covering and Dura Soft® palms. In 1987, BDP gloves feature the ARMOURFOAM padding system. The ARMOURFOAM system has a super high density - outer shell for increased impact resistance. The inner layer of softer, closed cell XL foam provides comfort and shock absorption.

The BDP is tailored to fit through use of preshaped fingers, backrolls and cuff. This virtually eliminates break-in time. The triple leather Armadillo thumb provides excellent protection and flexibility. Extended long warts protect the sides of the index and the baby finger. The poly reinforced cuff has triple layer foam protection.

Maintenance — The BDP glove does not retain moisture. Tuffstuff® fabric allows perspiration to dissipate quickly. Dura Soft® palms absorb less moisture and dry quickly. These gloves can be rinsed in water and mild detergent and hung to dry in a well ventilated area. Proper maintenance will provide years of use.

Superpro Armourback Models

ABP / LABP Crafted in Canada
ARMOURFOAM Padding System

The Armourback designed gloves provide increased protection to the vital back of the hand. This level of protection has been increased in 1987 through the use of ARMOURFOAM padded fingers and knuckle pads. The ARMOURFOAM system provides an outer layer of high density foam for increased impact protection. The inner layer BXL foam absorbs shock and provides comfort. Wrist and forearm are protected by a superthick cuffroll and Rubatex® cushioned polyethylene.

Cooper Armourbacks are made to fit. Precurved fingers and backroll provide easy flex and minimal break-in time.

Cooper Armourbacks have Dura Soft® palms which have been proven to wear longer and stay soft longer than horsehide.

ABP

The Cooper ABP has the exclusive Tuffstuff® fabric covered fingers, cuff and backpad. The ABP is Cooper's lightest professional hockey glove. Dura Soft® synthetic palms.

Red/Blue/White, Blue/White, Maroon/White,
Red/White, Blue/Orange/White.

Model 26

Junior model features long wearing Taffeta covered backrolls, fingers and cuff. Two piece nylon covered Armadillo thumb. Extended wart to protect index finger. Knit gussets for comfort and flexibility. Dura Soft® palms.

Length 12½" (31.5 cm)

Black/White, Red/White/Blue, Red/Black/White, Blue/White, Green/Gold/White, Red/White, Blue/Orange/White

Model 27

Novice model features Taffeta nylon covered backrolls and fingers. Extended vinyl wart, two piece nylon covered Armadillo thumb for flexibility. Dura Soft® palms. Pro style vinyl cuffroll. Poly reinforced cuff.

Length 11½" (28.75 cm)

Black/White, Red/White/Black, Red/White/Blue, Blue/White, Blue/Orange/White.

HG1

Atom model features Taffeta covered backrolls, cuff, and finger pads. The HG1 has soft flexible construction for proper stick control. One piece nylon covered thumb and pigskin palm. Poly reinforced cuff.

Length 10" (26 cm)

Black/White, Red/White/Blue, Blue/White, Blue/Orange/White, Red/White/Black, Green/Gold/White.

Cooper — Innovation of Today, Tradition of Tomorrow

Cooper's ongoing commitment to research and development has resulted in an ever increasing level of protection and performance. New materials and manufacturing technologies have allowed Cooper to take new approaches for the protection of athletes. Shinguards, shoulder pads and elbow pads are being continually improved for increased comfort, protection and performance.

Players choosing equipment should be aware of their protective needs. Consideration should be given to sizing, style of play and the protective limits to which you expect your equipment to perform.

DG52 Super Pro Shinguards

The DG52 Super Pro shinguards feature increased calf and knee protection. Calf and knee flares are fully poly reinforced. Additional protection is provided by the side knee cushions which nest the knee. Protection is not only increased from frontal blows; also the longitudinal side of the knee is encased and supported by the unique 2 point hinge construction. Free uninhibited flex is made possible by this Armourflex hinge which also provides full protection to the area between the knee and shin. The taper fit shin has a polypropylene sling that absorbs impacts. This sling is lined with soft foam and brushed nylon for comfort. The DG52 comes with straps incorporated into the pad for a quick secure fit.

DG52 Length 15" (37.5 cm) from centre of knee to instep.

DG52L Length 16½" (41.25 cm) from centre of knee to instep.

DG32 Professional Model

The DG32 Professional Model features the same state of the art construction as the DG52. Its unique Armourflex construction provides greatly improved protection for the vulnerable knee area. The DG32 has a brushed nylon laminated knee and calf flare. Shinguard straps are incorporated into the pads' construction for a quick secure fit.

DG32 Length 15" (37.5 cm) from the centre of knee to the instep

DG32L Length 16½" (41.25 cm) from the centre of the knee to the instep

DG32S Length 13½" (33.75 cm) from the centre of the knee to the instep.

Shinguard Sizing

Shinguard size can easily be found by measuring from the centre of the knee to the top of the skate boot — buy shinguards in this length. Shinguards which are too long will ride up the leg so that the cap is actually several inches above the knee, offering little or no protection at all.

Shinguards should never be held in place with tight hockey stockings. Always wear heavy elastics, special shinguard straps or tape to hold the pads in place.

Shinguards should be inspected before using to check for cracks in the polyethylene or worn padding. If the shinguard is damaged or has deteriorated it should be repaired or replaced.

Shinguard straps and garters are featured on page 41.

DG52

DG32

DG30 Professional Shinguard

Cooper DG30 features the unique 2 point hinge construction. This feature provides support to the knee joint on blows from the side as well as impacts from the front. The DG30's light weight is accomplished through the use of the Volara® and brushed nylon foundation which does not absorb and retain moisture as do conventional materials. Taper fit polyethylene shin and cap provide a trim comfortable fit. The inner polypropylene shin sling will not stretch and bottom out. The knee is protected by an inner cushion and donut of BXL high density foam.

DG30 Length 15" (37.5 cm) from centre of knee to instep.

DG30L Length 16½" (41.25 cm) from centre of knee to instep.

DG20 Full Size Shinguards

Nylon and expanded vinyl faced Clover Leaf knee section, wraps around knee area.

Constructed of white felt, backed by a covered foam knee cushion. Large, flared knee cap of super high impact polyethylene. Super-Flex knee hinge, extra heavily foam padded and poly reinforced.

Tapered vented shin section of super high impact polyethylene, backed by a thick pad of foam, running down the centre of the shin bone.

Improved leg sling features removable foam padding. Calf wings of 3/8 inch wide felt for wrap-around protection.

DG20 Pro Felt Padded Model

Length 15" (37.5 cm) from centre of knee to instep.

DG20L Long Model

Length 16½" (41.25 cm) from centre of knee to instep.

Shinguards should be inspected before using to check for cracks in the polyethylene or worn padding. If the shinguard is damaged or has deteriorated it should be repaired or replaced.

Junior Shinguards

DG30JR Junior Professional Model

The exclusive Cooper Armourflex feature is now available in a junior shinguard. The DG30 Junior provides protection from blows from the sides as well as impacts from the front. Its light weight is accomplished through the use of a Volara® and brushed nylon foundation which does not absorb and retain moisture as do conventional materials. The taper fit polyethylene shin and cap have been proportionately sized to provide a trim comfortable fit. The inner polypropylene sling will not stretch and bottom out. The knee is protected by the inner cushion and donut of BXL high density foam.

DG30JR Length 13" (32.5 cm) from centre of knee to instep.

DG30JRL Length 14½" (36.25 cm) from centre of knee to instep.

DG4 Junior Model

The DG4 features Super Pro wrap-around knee and shin protection. The shin is tapered to fit. The knee cap features increased cantilever wrap-around protection. The knee hinge is foam padded and polyethylene reinforced. The nylon covered foam knee cushion provides additional protection to the knee.

DG4 Junior Model 13" (32.5 cm.)

DG4L Long Model 14½" (36.25 cm.)

DG4S Short Model 11½" (28.75 cm.)

DG4XS Extra Short Model 10½" (26.25 cm.)

All Star Junior Shinguard Series

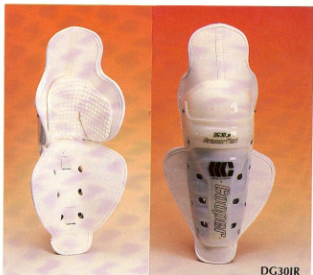

The All Star Junior line features Super Pro construction. The moulded shin and knee cap have been tapered to fit and provide wrap around protection. Pro style knee cushions are of Volara® foam with brushed nylon covering for comfort. Leg slings are constructed of sturdy canvas and calf wings of white felt. Vinyl covered instep pad.

DG9 Length 13" (32.5 cm) from centre of knee to instep.

DG7 Length 11½" (28.7 cm) from centre of knee to instep.

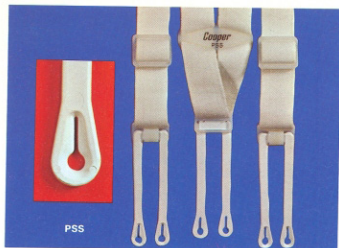

DG33 Length 10½" (26.25 cm) from centre of knee to instep.

DG13 (Note: Does not have canvas sling.) Length 9" (22.5 cm) from centre of knee to instep.

All Star Series

Suspenders

Professional Suspenders

1½" (3.75 cm) elastic used throughout. Features all nylon moulded parts, sliders, grip end and hearts. Fully adjustable and completely machine washable. Tough pliable suspender loops.

PSPL Professional extra long model of heavy duty elastic, 54" (135 cm) long Skin packaged, bulk.

PSP Professional long Model of heavy duty elastic, 48" (120 cm) long.

PSL Long model of regular weight elastic, 44" (120 cm) long.

PSM Medium Length Model of regular weight elastic, 40" (100 cm) long.

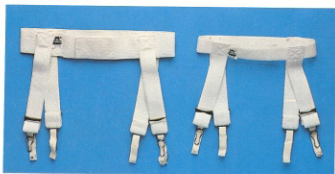

PSS Short Model of regular weight elastic, 34" (85 cm) long.

Garter Belts

GBVM Pro deluxe garter belt features a quick fasten 2" (5.0 cm) wide waist band. Four individual elastic drops. Boxed or Bulk.

GBVB Junior pro garter belt features a quick fasten 1½" (3.75 cm) waist band, and four individual elastic drops. Boxed or bulk.

Shinguard Straps and Garters

VSS Velcro® Senior Set

¾" (1.9 cm) wide elastic webbing. White only. Slide buckles for easy adjustment. 4 per poly display package.

ESG One piece elastic Garter

Only one needed for each leg. Features safety hooks. White only.

CSB1000 Cooperall® Upper Body Protector

The introduction of the Cooperall girdle and pant 6 years ago represented a tremendous breakthrough in the reduction of mid-body injuries. Tail, hip and thigh injuries have been dramatically reduced. This was made possible through the use of lightweight comfortable pads which fit snugly to the body. Cooper has adapted the protective technology of the Cooperall girdle to an upper body protective system, the CSB1000.

1987 CSB1000

New for 1987 is an inner layer of 3/8" thick supersoft Rubatex® foam for increased shock absorption and comfort.

CSB 1000

Protection

The CSB1000 is more than a shoulder pad. It's an upper body protector. Cooper has added increased protection to the sternum and clavicle through the use of ribbed high density foam moulded pads. The padded protection extends around the back and over the spine. The vital shoulder tips are protected by polyreinforced double layer foam pads. High density moulded biceps pads have an inner layer of soft foam for comfort.

Comfort

The Cooper CSB1000 is extremely lightweight, comfortable and flexible. The shell is soft stretch Lycra® which is Sanitized®. Movement is unrestricted. The CSB1000 is made of closed cell foam which will not absorb moisture or gain weight during play.

CSB1000 — Small
CSB1000 — Medium
CSB1000 — Large

CSB2000 Cooperall® Upper Body Protector NEW

CSB2000 features the same moulding technology and styling as the CSB1000 to provide Cooperall lightweight protection at a popular price. CSB2000 has high density moulded Trocellan foam over the collar bone area. The vital tips of the shoulders are protected by poly reinforced double layer foam pads. High density Trocellan moulded biceps pads for comfort and protection.

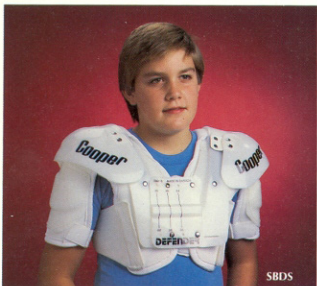

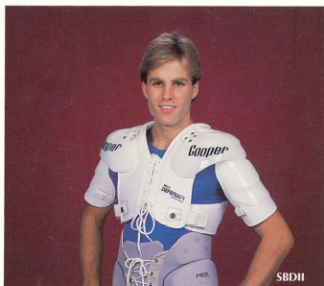

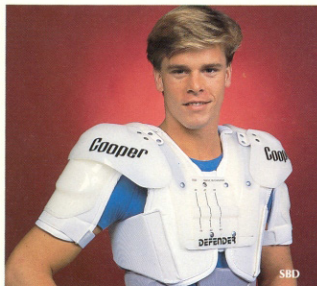

Quick fasten chest and biceps straps provide a snug comfortable fit.

CSB2000 — Small
CSB2000 — Medium
CSB2000 — Large

CSB3000 Cooperall® Upper Body Protector NEW

CSB3000 features a poly reinforced belly protector for extended protection. The CSB3000 has a stretch nylon outer shell for comfort and durability. Poly reinforced shoulder tip pads and biceps pads. Quick fasten biceps and chest straps for a snug secure fit.

CSB3000 — Small
CSB3000 — Medium
CSB3000 — Large
Not available until May 1, 1987.

Cooper Defender Shoulder Pads

Shoulder injuries are a primary problem at many levels of hockey. The Cooper SBD Defender series of shoulder pads has been developed through extensive consultation with Sports Medicine experts and is designed to minimize shoulder injuries. The Defender has been constructed to absorb shoulder impacts into the arches and away from the vulnerable points of the shoulder. The Defender series is very light and will allow full freedom of movement. Each model is adjustable for a proper personal fit. The polyethylene casing is lined with soft comfortable laminated foam with polyester covering.

Note: No shoulder pad can eliminate all potential injuries a player may receive.

SBD Defender

The high density polyethylene caps distribute impacts away from the shoulder tips and into the arches. The polyethylene arches have inner slings for extra protection. Biceps are protected by high density polyethylene caps. The polyethylene sternum can be adjusted to size. Arch cushions support the neck during impacts.

Defender SBD Regular Model
Defender SBD5 Teen Model

SBDII

The Defender II is our most popular shoulder pad in the pros. It combines the unsurpassed shoulder and biceps protection of the Defender with a conventional lace front construction. Underarm straps feature quick snap fasteners and foam padding. Shoulder and biceps foundations are foam padded and Tuffstuff® covered for durability and protection.

DEFENDER

XL3 Superlight Shoulder Pads

Each shoulder pad in the XL series is moulded of BXL high density foam. Arches are perforated to provide ventilation and to dissipate moisture for the player's comfort. XL3's are covered with machine washable stretch Lycra® for better fit and comfort. Shoulder caps are strategically positioned to cover the vital tips of the shoulders. Biceps are foam padded and poly reinforced.

XL3ML Professional Model

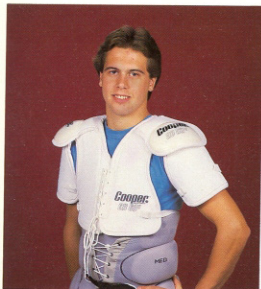

Full length model provides protection to the rib and sternum area.

XL3M Medium Length Model

Material and construction are the same as the XL3ML.

XL3SM Junior Teen Model

For the junior player. Same construction and protection as XL3ML.

SB60D Professional Full Length Model

The SB60D features the shoulder and biceps design which increases protection to the vital clavicle area at the top of the shoulder. The wrap-around biceps provides increased flexibility, and is poly reinforced. Fully poly reinforced chest and shoulder area. Laced closing in back and front. Moulded polyethylene shoulder caps.

SB69D Junior Teen Full Length Model

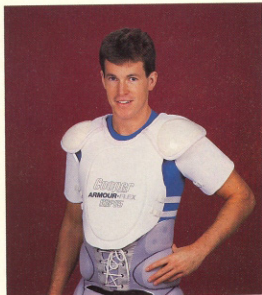

Same features as SB60D.

SB68D Pee Wee Pro Full Length Model

Same features as SB60D.

SB67D Atom Full Length Model

Same features as SB60D.

Cooper SBP65 Shoulder Body Pad Combination

Double layer polyethylene reinforced foam chest area. Large shoulder caps are strategically located to protect the vital tips of the shoulders. Wrap-around biceps pads are polyethylene reinforced.

SBP64 Junior Teen Model

Same features as the SBP65.

SBP63 Pee Wee Pro Model

Same features as the SBP65.

SBP62 Atom Model

Same features as the SBP65.

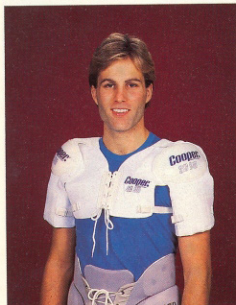

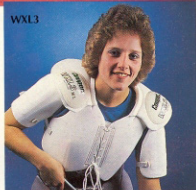

WXL3 Women's Shoulder Pads

Lightweight ladies shoulder pad. Nylon faced. Closed cell foam provides wrap-around breast and underarm protection. Moulded polyethylene shoulder caps and wrap-around foam padded, poly reinforced biceps pads.

WXL3-ML Medium Large Model

WXL3-SM Small Medium Model

WXL3

All Star Series

Taffeta nylon faced shoulder pads. The All Star series has polyfoam padding in the shoulder and chest area and a laced front. Elastic closing at back. Moulded polyethylene shoulder cap, foam

padded with two inch wide webbed hinge. Wrap-around biceps are foam padded and poly reinforced. Adjustable body and biceps straps with slide and dome fasteners.

EKFL

EKFM

Cooper Elbow Pads

Protection of the elbows is extremely important, and often an area of protection which players will neglect.

Important

The elbow pad must fit. Most elbow injuries occur when the elbow pad has slipped off the elbow and an impact occurs. Make sure the elbow pads fit snugly.

Protection

Players must purchase the quality of pad which is suitable for their level of hockey. Cooper makes elbow pads which fill the players' needs from Atom to Pro.

Compare

Cooper elbow pads. They provide fully padded inner "donut" protection in the conventional models. The donut extends the full length of the pad not just the partial coverage found in the pads of many competitors. Our style EKFL, EKFM, and EK20 have super high density foam integrated donuts which provide comfortable, sure protection.

Cooper Flexlight Elbow Pads

Featuring Tuffstuff® fabric — Made in Canada

Protection

Flexlight elbow pads provide the player with a tough high impact polyethylene shell which covers forearm and biceps no matter what degree of elbow extension. Inner donut is of super high density moulded foam which fully "cups" the tip of the elbow.

Fit and Flexibility

Flexlight elbow pads have a unique hinge construction which provides full unrestricted movement. The two quick fasten straps quickly adjust for a sure fit. Inner lining is polyester lined to prevent slippage.

Durability

Flexlight elbow pads now have Tuffstuff® fabric covering for long wear. The inner shell is high density injection moulded polyethylene for strength.

EKFL — Full Length Model EKFM — Medium Length Model

EK46 — Deluxe Pro Pad — Made in Canada

The EK46 features a pearl cowhide elongated elbow cap. Padded throughout with Rubatex® foam which provides supple and protective movement. Over 2" of foam and poly protect the elbow. Comfortable Rubatex® inner donut keeps the protection on the elbow where it counts. Features an extra slash guard on the outside of the pad. This added feature has a moulded cap covering the side of the elbow bone, plus a poly insert. Also features an extra foam and poly slash guard forearm extension for full elbow to wrist protection. Quick fasten adjustable straps. Length 10" (25 cm).

EK46JR — Made in Canada

The EK46JR features the same construction as the EK46. The EK46JR has a vinyl elongated elbow cap pad. The inner foam core is EVA construction, Rubatex® foam donut, and adjustable quick fasten straps. Extra poly reinforced slash guard, and forearm pad. Length 9" (22.5 cm.)

EK34 — Pro Pad — Made in Canada

The EK34 features a pearl cowhide elongated elbow cap. The EK34 features an inner Rubatex® foam construction for supple and protective movement. It also features a Rubatex® foam donut which keeps the pad in position and provides over 2" of foam and poly protection over the vital tip of the elbow. Quick fasten adjustable straps. Length 10" (25 cm.)

EK34JR — Made in Canada

The EK34JR features the same construction and styling as the EK34 pro model. The EK34JR has an elongated vinyl elbow cap pad, and a Rubatex® donut over the elbow. Inner foam core is EVA. Quick fasten adjustable straps. Length 9" (22.5 cm.)

Cooper Goal Equipment

Cooper Goal Equipment is recognized worldwide for its CUSTOM HANDCRAFTED appearance and INNOVATIVE FEATURES. Each Cooper product is carefully crafted to ensure ultimate performance for the stars of today. Recognizing the special needs of goaltenders, Cooper develops its products to give players a CUSTOM winning edge. Cooper was the first company to introduce goal pads made of Dura Soft® material, which reduced the weight by 2 lbs. per pair in our Pro models. Dura Soft® material allows shorter break-in time, reduced water absorption and lighter weight. For 1987, Cooper is proud to announce the introduction of Dura Soft® goal gloves to our entire line. Many of these models have been upgraded to include Pro features which were not previously offered. The lighter weight and reduced break-in time makes these gloves a must for all serious goaltenders.

Cooper maintains its standards as the highest quality goal equipment manufacturer in the world.

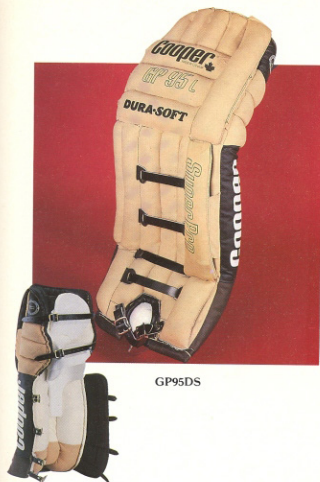

Cooper offers a limited range of custom coloured goal equipment plus custom features upon request.

DURA·SOFT

Dura Soft® Material Features & Benefits

Dura Soft® is a synthetic material selected to replace leather in goal pads and goal gloves. Laboratory tests and two years of rugged use by Pro teams has established our Dura Soft® material as a superior product to leather. Dura Soft® material wears longer compared to leather. Dura Soft® material has greater breaking strength and resistance to tearing (tests were performed by the Retail Research Foundation of Canada). Dura Soft® material absorbs less moisture than leather, and dries at least 3 times faster. When dry, Dura Soft® material returns to its original shape and appearance whereas leather loses its appearance and becomes stiff. Dura Soft® material goal gloves and goal pads are identified by the Dura Soft® logo stamped on each product.

GP95DS

GP95

Goal pad hand sewers demonstrate the unique skills and equipment needed to make Custom Cooper Goal Pads.

Cooper Dura Soft® Goal Pads

Lightweight

The Cooper GP95 Dura Soft® pads are approximately 2 lbs./pr. lighter than leather.

Flexibility

Dura Soft® dramatically reduces the breaking in time.

Durability

Extensive professional use has proven Dura Soft® to be extremely durable. Dura Soft® wears longer and stays soft longer than leather.

GP95 Dura Soft®

The GP95 Dura Soft® features lighter weight, increased flexibility and durability. Side gussets have wrap around Dura Soft® knee rolls and heavy leather in the ankle for increased wear. The GP95 has larger front rolls for improved protection and appearance. The outside rolls have tie-downs at the calf and above the knee to retain proper shape. The GP95 features a poly-reinforced foam knee cushion. The knee cushion features Lycra® and brushed nylon covering and quick fasten two inch wide straps. The GP95 knee cushion stays with the knee and thigh for independent protection. Quick fasten adjustment allows the knee cushion to be raised or lowered in the goal pad according to the player's preference.

The GP95 has a tapered top with a nylon reinforced top lining. The inner 3/4" felt foundation is 100% wool. Instep opening for the skate has heavy leather binding for increased wear. Nylon covered polyreinforced calf wing features knee to ankle protection.

GP95DS	29"	(74 cm)	Dura Soft®

GP95 Leather

GP95 Leather model features the same construction and styling as the GP95 in Dura Soft®. These pads have select top grain cowhide facing.

GP95	29"	(74 cm)	Leather
GP95L	32"	(81 cm)	Leather
GP95XL	34"	(86 cm)	Leather
GP95XXL	36"	(91 cm)	Leather

Each pair of GP95's is assembled and stuffed by one craftsman. His or her name appears on every pad and is your assurance of the skill and pride that goes into the product.

DURA·SOFT

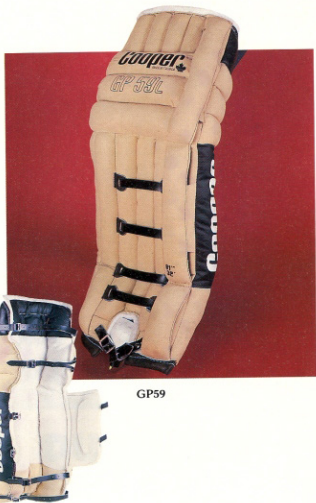

GP95JR

GP95JR Junior Pro

1987 GP95JR features Dura Soft® construction. Shaped and styled after the Super Pro GP95. The deep inner tunnel provides wrap-around protection for the knees and calves. Felt calf wings provide additional protection in this vital area. Felt backing is nylon reinforced in the knee and leather reinforced in the boot for improved durability. The seven cowhide straps are leather reinforced around the facing openings. Outside rolls have tie downs above and below the knee to retain shape. Heavy leather binding around the bottom of the lower boot for long wear.

GP95JR 27" (68.5 cm.)

GP59

GP59 Professional Pads — Dura Soft® Construction

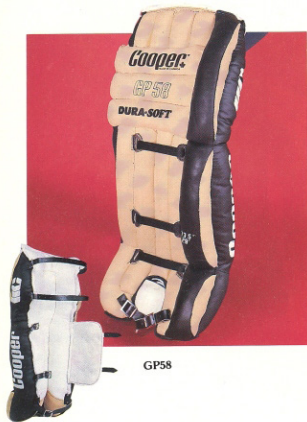

The GP59 features the thicker shape of the GP95. The GP59 has a deeper inner tunnel for wrap-around protection. The felt calf flare has a large polyethylene cap for improved protection. The face rolls are thicker for improved shape and protection. Outside rolls have tie downs above and below the knee so proper shape is retained. The outside roll is stitched at the lower break to minimize the break-in period. Knee rolls are stuffed with deer hair, vertical front rolls are stuffed with lightweight poly foam. The seven black leather straps have stitched facing reinforcements. Heavy leather binding around lower boot area for long wear. Nylon reinforced knee and 3/8" (11.8 mm) thick white felt backing. Instep is leather lined and nylon bound. Dura Soft® side rolls at the knee. Nylite side gussets from the knee to the ankle have large Cooper screen.

GP59 29" (73.5 cm)

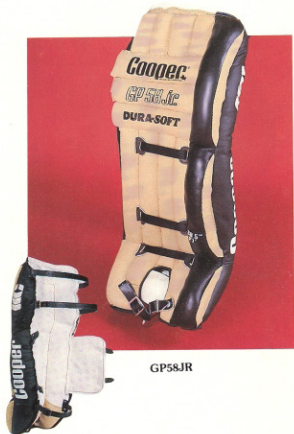

GP59L 32" (81 cm)

GP59XL 34" (86 cm)

DURA-SOFT

GP58

GP58JR

GP58 Deluxe Senior Model — Dura Soft® Construction

The GP58 features the GP95 style deep inner tunnel for wrap around protection. The pro style knee rolls wrap right around the side of the knee. The pre-shaped side gussets allow a quick break-in period. Buckles and leather straps for quick sure adjustment. Cooper GP58's are Dura Soft™ faced with Nylite side gussets. Instep is Dura Soft™ lined, and white 3/8" (1.8 cm) polyester felt backed. Felt calf wing provides additional wrap around protection. Pads are firmly stuffed with lightweight foam padding.

GP58 Length 29", 73.5 cm

GP58L Length 32", 81 cm

GP58 JR Intermediate Model — Dura Soft® Construction

The GP58JR features the same pro style features as the GP58 Senior Deluxe model. The 58JR has been designed to allow full protection and manoeuvrability. They are specially designed, proportioned and balanced to allow easy skating. Buckles and leather straps for quick sure attachment and adjustment. Polyester felt back and calf wings for wrap around protection. Length 27", 68.5 cm.

GPX Goal Knee Pad

The GPX goalie knee pad is the same construction as the GP95 inner knee cushion. The GPX has an inner moulded foundation of poly reinforced high density foam. The GPX has a "Donut" shaped inner knee which keeps the pad on the knee. Quick fasten straps allow quick sure fit.

GPXJR —

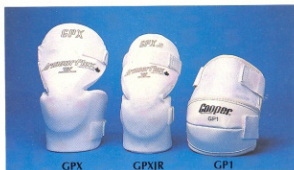

Same as above except sized to fit a player to age 12.

GP1 Goal Knee Pad

Foam padded with moulded poly knee cap and leg plate. Nylite and expanded vinyl faced, adjustable, quick fasten strap.

GP2 As model GP1, expanded vinyl faced.

GP4 Junior size, GP2, expanded vinyl faced.

★TUFFSTUFF★

GP65 Junior Pro Model Dura Soft®

The GP65 Dura Soft® features pro style shape for better protection and appearance. The deep inner channel wraps around the leg for improved coverage. Lightweight firm foam padding throughout. Fully reinforced lower boot area for long wear. Heavy duty felt calf wing for wrap around protection.

GP65 Length 25" (63.5 cm)

GP35 Junior Pro Model — Dura Soft®

Length 23" (57.5 cm)

Same styling and construction as the GP65, except for calf wing protection.

GP64 Junior Pro Model — Tuffstuff® Fabric

The GP64 features the same styling and shape as the GP65. Front rolls and lining are constructed of super lightweight, flexible TUFFSTUFF® fabric. These pads with the TUFFSTUFF® fabric break in very quickly and are long wearing. The lower boot is fully lined and reinforced. Lightweight firm foam padding throughout.

GP64 Tuffstuff® Length 25" (63.5 cm)

GP34 Tuffstuff® Same shape and construction as GP64.

Length 23" (57.5 cm)

GP23 Junior Boy's Model

Faced with expanded vinyl. Wool stuffed throughout. Canvas backed.

Length 21", (52.5 cm.)

GP67 Pee Wee Model

Expanded vinyl faced, wool stuffed. Cotton duck backing. 4

Cowhide straps.

Length 22", (55 cm.)

Cooper Pro Stick Gloves

Dura • Soft

The Cooper Waffle design Stick Glove has been the trademark of the Cooper design for many decades. The all new 1987 Stick Glove line features Dura Soft® and TUFFSTUFF® material construction versus last year's leather and nylon models. By replacing leather with Dura Soft® material we were able to reduce the weight of many of the Custom Pro Stick Gloves by as much as 28%. The unique properties of the Dura Soft® material allow lighter weight, improved break in time, faster drying time and longer wear.

GM12S Custom Pro Stick Gloves

The GM12S is offered in Dura Soft® material and leather models for 1987. The 1 1/8" one piece plastifoam backpad has been increased in thickness to allow greater protection and increased stiffness to the blocking area. A new Rubatex® foam pocket has been added at the back of the hand for additional shock absorption. A thicker foam and polyethylene finger protector is standard in all GM12S's. New tapered fit, Dura Soft® material palm. Fast-Lock wrist strap provides a proper, secure fit.

- GM12S-DS Regular Stick Hand Mitt. Tan. Dura Soft®.
- GM12SFR-DS Full right Stick Hand Mitt. Tan. Dura Soft®.
- GM12S Regular Stick Hand Mitt. Tan. Leather.
- GM12SFR Full Right Stick Hand Mitt. Tan. Leather.
- GM12S Black Diamond Model. Regular Model Only.
- Black. Leather.

Replacement Items

- IGM12 Foam and poly reinforcement for stick hand pads. Shock absorber construction.
- GMP Dura Soft® material replacement palm for regular stick hand mitt.
- GMPFR Dura Soft® material replacement palm for full right stick hand mitt.

Athletic Glove

CSG100 Super Pro Model Professional Athletic Glove

Cooper Glove Sets

GM9  **New Dura Soft® and Tuffstuff® material — Senior set — Handcrafted in Canada.**

The new GM9 catch mitt has similar pro styling and a new deep scoop T-trap just like the custom pro gloves. The T-trap provides a better catching pocket. The side trap and additional cuff protection has been added to provide more blocking area and increase protection to the wrist. The Dura Soft® and Tuffstuff® material construction has increased the flexibility and improved the longevity of the glove. The inner foundation is polyethylene sandwiched between 100% felt. Tuffstuff® cushion back increases protection to the back of the hand. The eyelet and lace holes have been reinforced with Dura Soft® material to provide longer life to the glove. The lightweight stick glove has become even lighter with Dura Soft® and Tuffstuff® material. A foam and polyethylene split finger protector is standard on all GM9 stick gloves to provide increased protection to the fingers. The back pad cover is heavyweight Dura Soft® while the gussets and inside lining are Tuffstuff®. The blocking pad features one piece construction with a sheet of polyethylene sandwiched between layers of poly foam. Dura Soft® material palm for increased wear and better feel.

- GM9C Regular Catching Mitt
- GM9CFR Full Right Catching Mitt
- GM9S Regular Stick Hand Mitt
- GM9SFR Full Right Stick Hand Mitt

GM6 Senior Set — Handcrafted in Canada 

The GM6 Catch and Stick Glove feature Dura Soft® and Tuffstuff® material construction for lighter weight and increased flexibility. The Catch Glove has a horizontal trap and fast acting diagonal breaking palm. The inner foundation has quarter palm poly stiffener sandwiched between felt padding. Nylon laced throughout. The GM6 stick glove has Tuffstuff® material back pad cover, gussets and cuff. The Tuffstuff® material allows greater abrasion resistance than vinyl. The new Dura Soft® palm provides a better fit and feel for the goal stick. Polyethylene reinforced thumb protection. Hand pad features one piece construction with a sheet of polyethylene sandwiched between layers of poly foam.

Junior Custom Pro Gloves GM21JRC/GM12JRS

Super Pro styling and construction.

The GM21JRC Catch Glove and GM12JRS Stick Glove have many of the features of the Senior Custom Pro models but scaled down to fit the Junior Goalkeeper. These gloves are available in Tan or Black Diamond® Dura Soft® material models allowing lighter weight, quicker break-in, faster drying and increased durability. The GM21JRC has a new large cuff protector with side trap for additional protection to the wrist. A long T-trap in the Catch Mitt assures a deep pocket for superb catching. The quarter palm poly and felt foundation provide protection to the fingers plus ensure a proper break-in of the glove. The palm and lacing reinforcement is heavy weight Dura Soft® material. The cuff and back of hand are durable Tuffstuff® material. The back of the hand is also protected by a layer of volara foam. Dura Soft® material finger and thumb loop adjustment and fast lock wrist strap provide a secure fit. The GM12JRS Junior Custom Pro Stick Glove has a high impact polyethylene insert sandwiched between poly foam. The back facing is heavy weight Dura Soft® material. A split 2 piece finger protector has been added for 1987 to protect the backs of the fingers. A Dura Soft® material palm allows increased wear and better feel for the goal stick. The thumb is polyethylene reinforced and foam padded.

GM20PWS

GM20PWC

GM20PW Glove Set — NEW**Pee Wee Pro Model — Handcrafted in Canada**

The Pee Wee Pro Series is designed using Dura Soft® and Tuffstuf® materials for optimum performance and durability for the young future pro goalkeeper.

The GM20PWS catch glove has a large cuff protector for improved protection to the wrist. Some of the Super Pro features offered in the Catch Glove are "T" trap for better catching, use of Dura Soft® and Tuffstuf® materials for long wear, polyethylene and felt foundation for a proper break-in and a large cuff protector. Dura Soft® material finger and thumb loop adjustment plus fast lock wrist strap for a comfortable secure fit. Nylon laced throughout.

The GM20PWS Stick Hand Glove is styled just like the Super Pro models. The thick Dura Soft® material back cover provides increased wear and lighter weight. A new one piece foam finger protector is standard on all stick gloves. The blocking pad is polyethylene sheet covering thick poly foam for full protection.

GMTS

GMTC

GMT Junior Boys' Set — NEW

Designed for the young goaltender, ages 5 to 8. The GMTC Catch Glove has a Dura Soft® material palm and horizontal trap. The back of the catch glove is Tuffstuf® material for increased wear and ventilation. Poly and felt foundation in palm. Poly reinforced Tuffstuf® material cuff. Nylon laced throughout. The GMTS Stick Glove has a double laminated Tuffstuf® material back cover and single layer Tuffstuf® material gussets. The back pad protection is thick poly foam covered with sheet polyethylene. Dura Soft® material palm. Foam and polyethylene reinforced thumb protection.

SABP

SABPJR

Cooper Deflector SABP

The refinement of hockey sticks and slap shots has increased the protection requirements of today's goalies. The Deflector has evolved from the technology and experience gained through Cooperall®. The Deflector has a Lycra® foundation. The use of Lycra® provides incredible freedom of movement and ventilation. Pads are strategically located to provide maximum protection yet allow full manoeuvrability. The catching arm and the blocker arm are designed specifically for their respective movements and areas of protection. BXL foam pads have polyethylene reinforcement for triple layer protection. Tapered cuffs fit easily into goal mitts. The Deflector body padding incorporates a unique Armadillo type design which extends or contracts as the body moves for unsurpassed freedom of movement and comfort. The belly pad inserts are poly reinforced. Full back protection provides secure comfortable fit. Full poly protection extends over the shoulder to protect the vulnerable clavicle and collar. Belly section is Lycra® covered. Sanitized®.

SABP	Regular Model
SABP-FR	Full Right Model
SABPL	Long Model
SABPL-FR	Long Model — Full Right

SABPL is 2" longer than regular model (1" in the forearm and 1" in the biceps area). Belly section is same dimension as the SABP.

Deflector Junior Model

SABP Junior

The SABP Junior has been designed for the needs of the 12 to 14 year old goaltender. The protection needs of today's goaltenders are continually increasing. The SABP Junior is entirely poly reinforced for improved protection. The Cooperall® padding system allows more freedom of movement than conventional models. The catcher arm and the blocker arm are specially designed for their respective movements. Tapered cuffs fit easily into goal mitts.

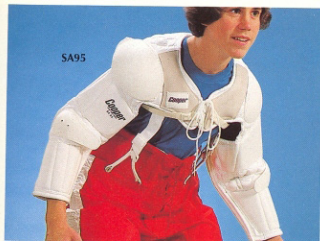

SABPJR — Regular Model only.

Cooper Sports Medicine Products

In keeping with Cooper's ongoing commitment of promoting and improving athletic performance through innovative product development, Cooper is proud to announce its involvement in the field of sports medicine products for the prevention and/or management of sports injuries.

Neoprene supports provide the user with:

- Support** consistent compression
- Heat** Neoprene rubber insulates, retaining body heat
- Comfort** Lycra laminated to both sides of Neoprene rubber, wide assortment of sizes and velcro® adjustments for a non-restricting comfortable fit.
- Quality** Durable materials and Cooper workmanship resulting in a quality product.

NTW Neoprene Thigh Wrap

Provides compression and support to quadricep and hamstring muscles. Wrap-around straps for extra adjustable compression. Measure mid thigh for proper sizing. Neoprene rubber retains warmth around muscle area assisting muscle movement. Small for thigh circumference 18"-20" (45-50 cm), Medium for thigh circumference 20"-22" (50-55 cm), Large for thigh circumference 22"-25" (55-62.5 cm), and Extra-Large for thigh circumference 25"-28" (62.5-70 cm).

NGS Neoprene Groin Support

Provides compression and support to groin area. Wrap-around design for ease of handling and adjustment. Neoprene rubber retains warmth around muscle area assisting muscle movement. Same sizing as NTW above.

NKS1 Knee Support

Provides consistent compression and support to knee joint. The Neoprene rubber insulates, retaining body heat and warmth around joint. To size, measure circumference of thigh 6" above mid knee. Small for thigh circumference 14"-15" (35-37.5 cm), Medium for thigh circumference 15"-16" (37.5-40 cm), Large for thigh circumference 16"-17" (40-42.5 cm), and Extra-Large for thigh circumference 17"-18" (42.5-45 cm). Offered in Grey only.

NKS2 Open Patella Knee Support

Provides consistent compression and support to knee joint. Pressure on patella (knee cap) is eliminated by cutout opening. Horseshoe-shaped felt pad adds support to patella. Neoprene rubber insulates, retaining body heat and warmth around joint. Same sizing as NKS1 above. Grey only.

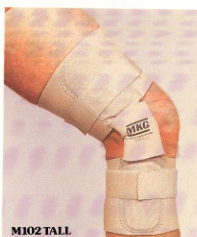

Warning:

No support can prevent muscle injury or tissue damage. No guarantee is expressed or implied that injury will be prevented with the Neoprene Supports. Cooper recommends a physician be consulted if pain or strain persists. Neoprene rubber may cause skin irritation. The Neoprene supports should not be worn over open wounds or by people with known skin problems. If problem continues do not use support.

M102-Reg.

M102 TALL

M121

McDavid Knee Guard®

M102-Reg. M102-Tall

Preventative knee brace used to reduce medial or lateral instability in all sports and activities. Widely used in football, hockey and skiing. Neoprene sleeve keeps brace on leg without taping. To size, measure circumference of the thigh 6" (15.2 cm) above mid knee. Regular Small/Medium or Tall Small/Medium for thigh circumference less than 20" (50.8 cm). Regular Large/Extra Large or Tall Large/Extra Large for thigh circumference 20" (50.8 cm) and over. Tall is recommended for athletes over 6' (1.82 m) in height.

M121

Preventative knee brace identical to M102 model except does not come with Neoprene sleeve. This particular brace is designed to be taped to leg. Comes in two sizes. Regular Tall and Extra Tall (for athletes over 6' (1.82 m) in height).

Knee Supports

KB1 Hinged Knee Support

Surgical weight elastic supplies compression, metal side bars control lateral instability. Small for knee circumference 11½"-13" (29.2-33 cm), Medium 13"-14¼" (33-37.5 cm), Large 14¼"-16½" (37.5-41.9 cm). White only.

KB2 Open Patella Support

Provides consistent compression and support to knee joint. Cutout opening eliminates pressure on patella (knee cap) and sponge pads help support patella. Same size as KB1 above. White only.

KB3 Knee Support

Provides consistent compression and support to knee joint. Full length spiral stays add further support. Sizes same as KB1 above. White only.

Street Hockey Goals and Equipment Goals

Super Goal L - Available in U.S.A. Only

The exclusive Super Goal L measures 54" wide by 44" high (137 x 112 cm). The Super Goal L has a middle "T" bar for extra support. The goals are shipped unassembled. Assembly takes just 10 minutes. Pipe is strong heavy duty PVC. Strong nylon mesh. Patent pending in U.S.A. Not recommended for ice hockey.

Super Goal (Inset) - Available in U.S.A. Only

The Super Goal measures 48" wide by 36" high (122 x 91 cm). Same construction as the Super Goal L except without back T bar.

FHG

Folding Practice Goal, simply unfolds in minutes. Constructed of zinc plated tubing. Size opens 54" x 42" x 15" (135 cm x 105 cm x 37.5 cm).

GN6

Lightweight net to fit the FHG.

SHG

Junior size goal 36" x 34" x 12" (90 cm x 85 cm x 30 cm). Ideal for street hockey or practice shooting. Complete with nylon net.

GN5P

Lightweight net to fit the Super Goal.

SP Superblade

Replacement blade designed for ball, dek, street and playground hockey. Cooper triple "C" design allows less wind resistance while shooting. Fits onto hockey stick shaft by tapering the end and heating the socket. A metal screw may be added to the hole provided in the socket. Blade can be curved by heating and bending for either a right or left handed shooter. Easy-to-follow instructions included. Minimum order, carton of 36.

PRB-L/PRB-R — Available in U.S.A. Only

Same as PRB except for a preformed left or right handed curve. Minimum order, carton of 30.

SS

The Super Stick, combination Super Blade with 48" (120 cm) white ash handle assembled ready to play. Minimum order, 1 bundle of 12.

SS-L/SS-R — Available in U.S.A. only

Regular Super Stick handle with preformed left or right curved blade. Minimum order, 1 bundle of 12

GPSH Street Hockey Goal Pads

Lightweight, durable pads provide blocking area and protection required for street hockey. Constructed of polyethylene foam and poly faced to withstand abrasion. Length 22" (56 cm).

SBH

Super Stick Handle above. Preshaped to fit the Super Blade. Packaged in bundles of 12. Minimum order, 1 bundle of 12.

SBG Goal Stick Blade

Replacement Goal Stick Blade. Designed for street and ball hockey. Moulded of tough linear poly. A hockey stick handle can be fitted by tapering its end. Easy instructions included.

SP Street Puck

Cooper low bounce street hockey puck is moulded of Plastisol Vinyl. The SP has rounded edges for safety. Knurled sides just like a real puck. Top and bottom surfaces are concave contoured for easy sliding on cement and asphalt. Packed in an attractive display carton of 48 pucks. Minimum order 1 carton.

SRP Sponge Rubber Puck

Moulded of black sponge rubber. Official size. 48 in an attractive display carton. For use on cement and asphalt surfaces and gym floors. Minimum order 1 carton.

SHB Low Bounce Street Hockey Ball

Specially moulded of Fire Engine Red Plastisol Vinyl. Available in bulk pack of 50 balls or in a carton of 50 balls, individually skin packaged on display cards.

BHB Ball Hockey Ball

Used by many Ball Hockey leagues because of its exacting specifications. The BHB is moulded of fluorescent orange Plastisol Vinyl. Harder durometer than the SHB. The BHB is packed in cartons of 36. Minimum order 1 carton.

HSBE Butt Ends

Stick Butt End. Cooper design of black rubber-like vinyl. Skin packaged on a display card in lots of 50, or in bulk pack of 50, uncarded.

BROOMBALL

Broomball Faceguards

Recommended for broomball and field hockey

HM30 Wrap-Around Wire Face Guard

(Not C.S.A. or ASTM approved for ice hockey or lacrosse). Nylon coated wire cage style guard for goalkeepers. Added protection around the vital ear area. Hinges to the top of the helmet and secured by adjustable elastic straps attached to the helmet ear straps.

Chin cup constructed of shock resistant Rubatex®.

HM30JR Junior Size

As above to fit up to age 12.

HM40 Wire Face Guard

(Not C.S.A. or ASTM approved for ice hockey or lacrosse). Nylon coated wire cage-style guard. Made to fit the Cooper SK600, will not attach to SK2000 or XL7. Domed-on, Rubatex® padded chin. Secured at temples and forehead area for solid protection. Adjustable sizing for distance from face.

CFG Clear Face Visor (Not shown)

(Not C.S.A. or ASTM approved for ice hockey or lacrosse). Moulded of high impact resistant Lexan, a light, shatterproof material. Provides the ultimate in optical clarity and is virtually distortion free. Protection for eyes, cheekbones and upper face to reduce injury. Fully adjustable fit. Can be worn with eyeglasses or contact lenses. Rounded edges for added safety. Vented at top to reduce fogging.

CFG7SP

Same construction as CFG except made to fit the XL7 helmet.

Broomball Sticks and Balls

BBS Official Broomball Stick

Featuring a bevel cut head for greater ball control. The head is double dipped in orange rubber sealing it from moisture and wear. The 1 1/8" (2.6 cm) diameter hardwood handle is bonded and wire belted to the head. Length 46" (115 cm), width 4" (10 cm).

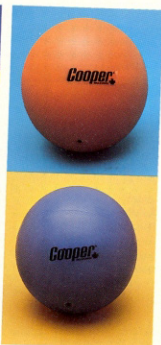

RBBS Official Certified Rubber Broomball Stick

Durable rubber moulded head offers flat surface for better ball handling. The freezing point of this broom is below -40°C, and outdoor use does not change its qualities. Durability of the head eliminates all use of adhesive tape. Cut to angle of your choice by following lines provided on the head. Width 4 1/2", (10 cm).

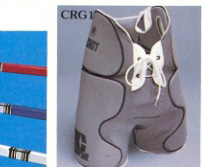

851-B Broomball. Official size. Blue laminated vinyl, heavy duty model. 6" (15 cm) diameter. For outdoor use.

851-O Broomball. Orange model for indoor use.

Anti-Fog — NEW
Designed specifically for Cooper to prevent fogging of clear polycarbonate face shields. Display carton of 24-4 oz. bottles. Minimum order 1 carton.

R I N G E T T E

Ringette Equipment

RKP Ringette Knee Pad

The Cooper RKP has been specially designed for the playing needs of Ringette players. The RKP features a hinged polyethylene construction which provides full freedom of movement. The high impact polyethylene knee cap has double layer Volara foam padding with brushed nylon lining. The quick fasten straps provide a snug comfortable fit.

Approved for play by Ringette Canada.

RCP Ringette Cooperall Pant

The RCP Ringette pant is made of Cooper's exclusive Tuffstuff® fabric which is highly resistant to cuts and wrinkles. The RCP has been designed to be worn in co-ordination with the CRG1 Cooperall® Ringette girdle. The total unit provides trim, comfortable protection.

Sizes: 8, 10, 12, 14, 16

Black with White/Black/White Stripe

Blue with Blue/Red/White Stripe

Red with Blue/Red/White Stripe

CRG1 Cooperall® Ringette Girdle

Specially designed Ringette girdle provides protection to the vital tail bone, hip and kidney areas without adding bulkiness or weight. Stretch Lycra® construction with closed cell foam padding.

Sizes: Extra Small, Small, Medium, Large.

LPG1 Sports Glove

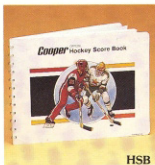

Lightweight, supple sports glove provides excellent protection for Ringette, Broomball and Floor Hockey. The glove features stretch Lycra® construction with soft flexible padding. Dura Soft® palm and cool Lycra® finger gussets. Adjustable cuffroll has Quick Fasten adjustment for snug fit.

Red/White, Blue/White, Black/White
Small, Medium, Large or Extra Large.

RTE-1 Ringette Stick

Select ash stick has been designed to meet Ringette specifications. Stocked in Red for defense, Blue for wingers, White for centre.

Length 54" (135 cm).

Cooper Sports Accessories

PB Puck Bag

Vinyl bag with round golf bag bottom for strength and support. Stands on ice. Height 15" (37.5 cm). Diameter 7.5" (18.8 cm). Holds 40 pucks.

OHP Hockey Puck

Official size and weight. Smooth edges and knurled sides. Minimum order 1 case of 100. Custom screening available.

NHLP Official NHL hockey puck. Made in Canada. Minimum order 1 case of 100 pucks.

HSB Cooper Hockey Score Book

Gives complete line-ups, scores and records for 27 games. Extra heavy back cover provides a sturdy writing surface.

WB Sport Flask

The New Cooper Sport Flask will hold one litre of your favourite beverage. Moulded in medium density polyethylene, this unique design features ease of filling, slim grip and permanent straw. Packaged in lots of one dozen. Please order in multiples of 12.

FP Athletic Foam Padding

Excellent for extra protection or sizing in all kinds of protective equipment. One sheet of 1/8" (.38 cm) pre-embossed shock foam 8 1/2" x 11" (21 cm x 27.5 cm) cut to desired size, strip off backing and apply. One sheet of 5/16" (.8 cm) shock foam 8 1/2" x 11" (21 cm x 27.5 cm) cut to size and insert or attach with contact adhesive where needed.

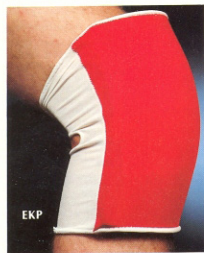

GG Eyeglass Holder

Designed to keep eyeglasses from slipping or falling off. Adjustable to fit any size or shape of glasses. Easily attached or removed.

EKP Cooper Knee Pad

For knees, elbows or forearms. Flexible non-pinching pad features 5/8" (1.6 cm) high density foam contoured to provide maximum protection. Stitched opening in back support allows comfortable fit. Stretch fabric covering offers support and superior ventilation.

Colours: White, Red, Blue, Green, Gold, Black. Sizes: Extra-Small, Small, Medium, Large, Extra-Large.

Sweatbands

EHSB

Individual headbands in white, red, tri-colour, royal blue.

NSL72BU 72" (183 cm). Bulk bundle of 144 single laces.

NSL84BA 84" (213 cm). Banded box of 1 dozen pairs.

NSL90BU 90" (229 cm). Bulk bundle of 144 single laces.

NSL90BA 90" (229 cm). Banded box of 1 dozen pairs.

White nylon laces, extra strong, narrow width, with plastic tip, specially made for figure skating.

WNSL72BA 72" (183 cm). Banded box of 1 dozen pairs.

WNSL84BA 84" (213 cm). Banded box of 1 dozen pairs.

Two-tone striped hockey laces of "stayed-tied nylon" with moulded tips.

TTL84BA Black/White, 84" (213 cm). Banded box of 1 dozen pairs.

TTL84BU Black/White, 84" (213 cm). Bulk bundle of 144 single laces.

White heavy duty polyester lace with blue stripe, extra wide, flat style with plastic tip.

PSL84BA 84" (213 cm). Banded box of 1 dozen pairs.

PSL96BA 96" (244 cm). Banded box of 1 dozen pairs.

PSL96BU 96" (244 cm). Bulk bundle of 144 single laces.

PSL108BA 108" (274 cm). Banded box of 1 dozen pairs.

PSL120BA 120" (305 cm). Banded box of 1 dozen pairs.

White professional extra heavy duty nylon with non-fraying moulded tip.

MTL84BA 84" (213 cm). Banded box of 1 dozen pairs.

MTL84BU 84" (213 cm). Bulk bundle of 144 single laces.

MTL96BA 96" (244 cm). Banded box of 1 dozen pairs.

Tendon guards laces of extra strong white polyester.

TGL Bag of 12 sets of 4 laces.

LACES AVAILABLE IN MULTIPLES OF STANDARD PACKS.

Protectoe

Made exclusively for Cooper, Protectoe was developed to protect the critical toe area of skates from cuts, abrasions, and wetness. Easy to apply and long lasting, Protectoe is recommended and used by several Pro and Junior team trainers. Offered in 120 ml. (4.2 imp. oz.) brush in cap container in a display pack of 12 containers.

Skate Guards

LSG Lightweight Skate Guard

For moulded blades. White Neolite.

MSG Deluxe Skate Guard

Spring action construction provides quick sure mounting to any hockey or figure skate blade. Thermoplastic rubber.

HSG Neolite Skate Guard

Can be used for walking. Fits all sizes of hockey, speed and figure skates. For steel blades. Black.

TSSG Cloth Skate Guard — NEW

— The TSSG Cloth Skate Guard absorbs moisture on skate blades to prevent rusting. Absorbent terry cloth inner and durable polyester outer. Strong elastic opening for a snug, secure fit. Fits adult skate sizes 5-13.

Note: This guard is not designed for walking.

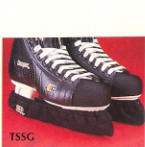

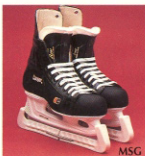

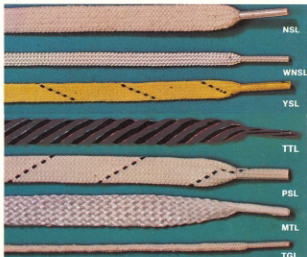

Ankle Supports

Ankle supports of moulded foam provide comfortable cushioned reinforcement to the ankles.

ASL Large size fits men and boy's shoe sizes 8-14.

ASM Medium size fits men and boy's shoe sizes 4-7 or women's and misses' sizes 5-11.

ASS Small size fits men's and boy's shoe sizes 8-3 or women's and misses' sizes 8-4.

HOCKEY LOCKER

COLOURS FOR 1987

20" x 17" x 30" (51 x 43 x 76 cm.)

A revolutionary equipment bag that will change the way you transport your equipment. Functional design includes external skate pockets and a built in skate mat. Constructed in a 420 Denier, PVC coated nylon, features include:

Skate Mat — Unzips flat to protect skate blades and keep feet dry.

Skate Pockets — Accommodates any size of skate.

Wet/Dry Pocket — Keeps damp garments away from equipment ready for laundering.

Double Zipper — Enables easy access to equipment.

Safety Pocket — Secures valuables and keeps them out of sight.

Replacement mats available.

Colours: Navy, Red with Canada Logo and Red/White/Blue.

Cooper Equipment Bags

The SKB series is constructed in a rugged 420 denier PVC backed nylon with polypropylene webbing. All zippers are of an extra heavy quality nylon and are self mending. Colours: Red/White/Blue & Red/White/Black & Blue/White.

SKBL

29" x 17" x 14" (73.6 x 43 x 35.5 cm). Large kit bag featuring 2-way nylon zipper, 3 eyelets on each end for ventilation, corner protectors and reinforced wrap-around handles with grip.

SKBXL

37" x 15" x 15" (94 x 38 x 38 cm). Extra large kit bag featuring 2-way nylon zipper, 3 eyelets on each end for ventilation, corner protectors and reinforced wrap-around handles with grip.

SKBXXL

42" x 22" x 20" (107 x 56 x 51 cm). Extra large kit bag featuring 2-way nylon zipper, 3 eyelets on each end for ventilation, corner protectors and reinforced wrap-around handles with grip.

Styles and graphics may be slightly different than those shown.

Nylon Sports Bags

8161 Nylon Roll Bag

18" (45 cm) at base. Made of acrylic backed, water repellent nylon oxford, this bag has polypropylene web handles, a heavy duty nylon coil zipper, 3 eyelets on each end for ventilation and features the Cooper logo.

Colours: Black/Red; Grey/Green; Blue/White; Red/Navy.

8162 Nylon Square End Bag

21" (52 cm) at base. Made of acrylic backed, water repellent nylon oxford, this bag has polypropylene web handles, a heavy duty nylon coil zipper, 3 eyelets on each end for ventilation and features the Cooper logo.

Colours: Black/Red; Grey/Green; Blue/White; Red/Navy.

8163 Deluxe Nylon Bag

20" (50 cm) at base. This bag is made of water repellent acrylic coated nylon oxford. It has heavy duty, nylon coil zippers and durable polypropylene web trim handles and detachable shoulder strap. End zippered pocket holds accessories.

Colours: Black/Red; Grey/Green; Blue/White; Red/Navy.

Cooper Equipment Bags

NKBL Large Equipment Bag
 36" x 18" (90 x 45 cm). Large equipment bag made from heavyweight 420 denier coated nylon. Features thick wrap-around web straps, heavy duty nylon zipper and I.D. window.
 Colours: Black, Red and Blue.

NKB Equipment Bag
 29½" x 14¼" (73.8 x 36.3 cm). Heavyweight 420 denier coated nylon bag with white wrap-around web straps. Features heavy duty double nylon zipper and I.D. window.
 Colours: Black, Red, Green and Blue.

NKBJR Junior Equipment Bag
 26½" x 13" (66.3 x 32.5 cm). In heavyweight 420 denier coated nylon with wrap-around web straps and features heavy duty nylon zipper and I.D. window.
 Colours: Black, Red and Blue.
 Graphics may be slightly different than those shown.

Racquet Bags

ST 1 Sport Tote

16" x 13 1/4" x 6 1/2" (40 x 34 x 16 cm.)

Made of water repellent nylon this bag features large zippered racquet compartment, adjustable/removable shoulder strap and side pocket.

Colours: Grey/Blue; Grey/Red; Black/Red.

SC 1 Sport Carry All
